

EX-CELL

KAISER

Decorative Receptacles for Waste and Recycling

METRO COLLECTION

Classic Design Meets Versatility

Since 2008, the Metro Collection continues to be one of Ex-Cell Kaiser’s most popular receptacle series. These self-contained recycling stations feature a classic, tapered design that compliments both traditional and contemporary décor, adding visual interest to any space.

Versatility and functionality are the hallmarks of this collection, available in 1, 2, and 3 streams. The Metro Collection XL further enhances the offering with 1 and 2 stream units with a slightly smaller footprint. This assortment of capacity and streams allow for a consistent look across the varied needs of any facility.

Other features include all steel construction, individual plastic liners, and rubber feet to keep unit elevated. Each unit comes with 2-3 removable lids to keep up with customers’ changing needs and a set of 7 waste stream identifier decals. The units come standard with a hammered copper or hammered charcoal powder coat finish, or in stainless steel, however custom colors and graphics are available and the large surface area makes these units ideal for big, bold logos.

The Metro Collection’s adaptable, stylish design helps customers achieve exactly what they want for their recycling program.

Since 1933, Ex-Cell has long been a leading manufacturer of quality metal products for the Janitorial, Hospitality and MRO markets.

A hardworking, talented and dedicated team of people, we pride ourselves on our innovative work in product concepts, design and development to expand our product line and accommodate our customers' needs.

Adding to our hospitality product offerings, we utilize enhanced technologies and put our in-house resources and talents to use by creating an extensive line of fire resistant, decorative steel receptacles. Inside or outside your facility, Ex-Cell offers one of the widest selections of Made in the USA receptacle collections on the market today.

As a company, we are consciously doing our part to help corporate facilities reach their sustainability goals by offering fire resistant, steel receptacles for their recycling programs. Through our distribution network and organizations such as Keep America Beautiful, Ex-Cell receptacles are proven to be a strong tool in the recycling efforts of facilities such as Staples Center, Pepsi Center, Georgia World Congress, numerous corporate facilities, municipalities, schools and universities in their success for achieving their sustainability goals.

Ex-Cell recognizes the importance of building your brand and brand awareness, therefore we offer the added value of product customization with the use of colors, bold custom graphics, logos and custom designs.

Excellence always begins with Ex-Cell!

As a result of our commitment to continuous improvements, occasionally minor changes may be made to our products without advance notice. Such changes are minor and have no effect on the form, fit and function of a product but may result in a minor cosmetic difference. Ex-Cell Kaiser will never mix any products that may have modifications within a single order. Our website will always reflect the most current product image.
