26

# AIR SHIELD

The new AIR SHIELD line of pads is a new production by Fighter. This pad is literally filled with air which makes it very light and extremely functional.

## AIRSHIELD MULTI-GRIP MITT

size: 29 x 14 x 6 in (75 x 35 x 15 cm) code: FKSH-07 material: PVC

Curved AirShield Fighter - Robust and durable punch, kick and strike curved shield is ideal for various martial arts like karate, taekwondo, kickboxing and other combat arts. Slightly contoured design is ideal for athlete and trainer. Multi-position nylon webbing and padded handles on back, top, sides and bottom make for comfortable and custom training options. Made in the Czech Republic (EU) Weight of the target is 3.7 lbs (1.7 Kg)

## AIR SHIELD

The new AIR SHIELD line of pads is a new production by Fighter. This pad is literally filled with air which makes it very light and extremely functional.

- \* Absorbs the force of punches and kicks more than the commonly used pads and shields.
- \* Featherweight construction
- \* Extremely durable material

The compressed-air technology has been used in the past by many sporting companies with great success. Fighter brand decided to utilize great features of this technology by bringing this new revolutionary product to the martial arts market. This pad absorbs the force of punches and kicks more than the commonly offered pads resulting in bringing new options to your training. You can inflate or deflate the pad depending on your needs by using a conventional pump and valve.

## MITT AIRSHIELD

size: 10 x 3 in (26 x 7 cm) code: A01527 material: PVC

This pad absorbs the force of punches and kicks more than the commonly offered pads by bringing new options to your training. You can inflate or deflate the pad depending on your needs by using a conventional pump and valve.

## SMALL MITT AIRSHIELD

- Absorbs the force of punches and kicks more than the commonly used pads and shields.
- Featherweight construction
- Extremely durable material

This small mitt uses the same technology as our Multi-grip Airshield and is design especially for technical speed drills. This mitt is extremely light, yet very easy to use. Ideally used in pairs. The compressed-air technology has been used in the past by many sporting companies with great success. Fighter brand decided to utilize great features of this technology by bringing this new revolutionary product to the martial arts market. This pad absorbs the force of punches and kicks more than the commonly offered pads resulting in new options to your training. **EU**

## THAI KICK PAD

**size:** 16 x 8 x 6 in (40 x 20 x 15 cm) **code:** F01602 **material:** PVC

Kick Pad made of high-endurance PVC. Large oval design is contoured for comfortable handling. With adjustable velcro straps. Ideal for long muay thai training classes where coaches need to use great strength to resist hundreds of hard kicks and punches. For these reasons these Kick Pads are much better than the traditional heavy-weight pads.

## CURVED THAI PADS

**size:** 14 x 8 x 5 in (35 x 21 x 14 cm) **code:** F01603 **material:** PVC

Kick Pad made of high-endurance PVC. Large oval design is contoured for comfortable handling. With adjustable velcro straps. Ideal for long muay thai training classes where coaches need to use great strength to resist hundreds of hard kicks and punches. For these reasons these Kick Pads are much better than the traditional heavy-weight pads.

## SHIELD

For specific training, specific equipment is needed. This traditional punch shield provides enough hitting area for direct kicks and punches

## ROUND SHIELD

size: 18 x 6 in (45 x 15 cm) code: FKSH-08 material: PVC

Fighter Round Shield provides unlimited options for various trainings thanks to its light weight, two handles, and durable PVC/polypropylene material.

# SHIELD

For specific training, specific equipment is needed. This traditional punch shield provides enough hitting area for direct kicks and punches

## LARGE KICKING PUNCHING SHIELD

**size:** 27 x 23 x 6 in (70 x 60 x 15 cm) **code:** FKPS-01 **material:** PVC

This shield is ideal for punches and kicks training with a partner. The trainer can simulate real fighting movements much better than a traditional heavy bag. The shield is perfectly filled with reinforced material, which absorbs full-force and full-speed strikes. In addition, the shield is washable and made of highly durable materials.

- Kick Pad for Power-Kick training, made of PVC
- Two grip bars for easy handling
- Padded with high density foam
- Curved shape for optimal shock absorption during kick training

**FOCUS  
MITTS**

Very light one-handed mitts.  
Designed for professional  
boxing training.

## FOCUS MITTS

**size:** 11 x 8 x 2 in (28 x 22 x 6 cm) **code:** FFMS-01 **material:** Leather

These leather Fighter focus mitts provide excellent force absorption without being too bulky and losing responsiveness.

- The hand compartment is stitched securely to the mitt over an inner palm pad that provides an ergonomic feel.
- The Fighter mitt is secured to the wrist with a strong velcro strap.
- Great for all target training. Extra mitt length protects wrists from strikes.

## FOCUS MITTS

**size:** 7 x 9 x 2 in (19 x 24 x 5 cm) **code:** JE1650FFG **material:** Leather

Smaller pattern of mitts. This model can be used for regular training or for precision and speed practise.

## FOCUS MITTS

size: 12 x 7 x 2 in (32 x 18 x 5 cm) code: JE-540 material: Leather

Longer modification of mitts. This model is great for training all boxing techniques. These mitts provide better protection of coaches hands.

FOCUS
