

Hardwood Table Slides

These wood slides are specially designed and have an engineered arc to provide constant leveling even when table is extended and leaves are in place. Wood on wood action provides quiet, smooth operation that lasts through generations of use.

M1

- For split pedestal or 4 leg tables up to 48" closed (will accept up to **24"** of leaves)
- Slide has 3 rails, 24" long closed and 50" long opened

M1
up to **24"** of leaves

M2

- For split pedestal or 4 leg tables up to 48" closed (will accept up to **36"** of leaves)
- Slide has 4 rails, 24" long closed and 63 1/4" long opened

M2
up to **36"** of leaves

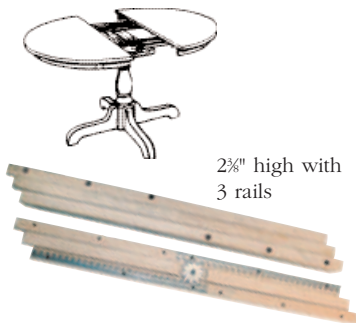

M3

- For split pedestal or 4 leg tables up to 48" closed (will accept up to **36"** of leaves)
- Slide has 3 rails, 36" long closed and 74 1/4" long opened

M3
up to **36"** of leaves

Equalizer Table Slides

Provide natural strength and stability your table requires. Used in pairs, they provide level support for the table top and extend the ends smoothly and evenly when adding leaves.

M5

- For fixed base or pedestal table up to 48" closed will accept up to **24"** of leaves
- 28" long closed and 54 1/4" long opened

M5
for up to **24"** of leaves

M6

- For fixed base or pedestal table up to 60" closed will accept up to **36"** of leaves
- 40" long closed and 78 1/4" long opened

M6
for up to **36"** of leaves
