

IMPACTO® BLACKMAXX

Vibration Reducing Gloves

Economical solution to vibration protection. Nylon/cotton knitted material ensures stretch and breathability. Palm coated with “pods” of lightweight cellular Chloroprene. This design ensures extreme comfort. Utilising encapsulated air to cushion and dampen vibration, giving the user optimum dexterity with a lightweight feel and reduced bunching. The vibration reducing gloves absorb and dissipate some of the vibration emitted from pneumatic and impact tools, helping to minimize fatigue to the hands, arms, and shoulders. Ideal for use with vibrating tools such as sanders, chipping hammers, jackhammers, chain saws, grinders and trimmers.

BLACKMAXX PRO

Same as BLACKMAXX with thicker coating to meet ISO 10819.

BLACKMAXX TOUCH

Same as BLACKMAXX in half finger style.

BLACKMAXX BLADE

Made with 60% KEVLAR® and 40% cotton seamless knit material (7gauge liner) to incorporate superior slash protection. Ideal for use with vibrating tools and materials with sharp edges such as during metal or glass fabrication. The BLADE PRO meets ISO 10819.

HEAVY HITTER

Back of the hand coated with heavy-duty “pods” of cellular Chloroprene for impact and abrasion protection. Palm coated to maximize gripping. Cushions and dampens vibration, impact and shock to the back of the hand and fingers. Ideal for any jobs where hands and fingers are exposed to pinching, crushing or striking.
