

3M™ Electric Variable Speed Polisher, PN28391

The Perfect System

Yes, you can have it all. Improve buffing and polishing productivity – and finish faster with more consistent results – when you add the 3M™ Electric Variable Speed Polisher to complete your finishing system. It's designed to deliver an excellent finish on the painted surfaces of cars, boats and planes – and it works great on acrylic and gelcoat too.

- **More productivity.** Finishing faster with consistent results saves time and money.
- **More performance.** Get a great-looking finish time after time, while reducing potential rework.
- **More power.** The 11 Amp motor delivers 37.5% more power.*
- **More control.** Maintain speed and power under load with 1,000 - 3,000 rpm variable speed control.
- **More comfort.** 3M gripping material and vibration-absorbing handle improve comfort.
- **More durability.** Solid, lightweight construction with an extra-long and extra-strong power cord.
- **More options.** Now all your finishing system elements are available from one source.

*Compared to polishers with an 8 Amp motor.

3M™ Electric Variable Speed Polisher

Get Better Results. All around.

Features

- More Power
- Lightweight
