

BADGER® 150®

DUAL ACTION, INTERNAL MIX, SIPHON (BOTTOM) FEED

The versatility of the 150® allows for a broad range of applications, making it the "classic" airbrush in the Badger line. The 150® accepts a 3/4 oz. color cup for small volume painting needs, or three larger sized jars can be used for bigger jobs. Used by everyone from artists to taxidermists and auto customizers to furniture refinishers, this airbrush sprays properly reduced acrylics, acrylic enamels and lacquers, gouaches, fabric colors, water colors, inks, dyes, Air-Opaque™, Air-Tex®, MODELflex®, Totally Tattoo® and Totally Tan™ airbrush colors. (Available as Fine, Medium and/or Heavy).

FEATURES

- * Choose 1/4oz. (7ml) free-standing color cup, 3/4oz. (22ml), 2oz. (60ml), or 3oz. (90ml) paint jars
- * Color cup and one-piece jar adaptor taper-fit for quick color changing
- * Self-lubricating PTFE needle bearing enables continuous proper paint flow and prevents needle wear
- * PTFE head seal assures efficient air flow
- * Winged back lever design and one piece, non-slip trigger for easy reassembly and smooth control
- * Fine (F) - pencil line to 2" (51mm) spray pattern
- * Medium (M) - 1/32" (0.8mm) to 2 1/2" (63mm) spray pattern
- * Heavy (H) - from 1/16" (1.5mm) to 3" (76mm) spray pattern
- * For sets see page 10

BADGER® 200®

SINGLE ACTION, INTERNAL MIX SERIES

Badger's 200® Series offers the ease of single action operation while providing the fine spray pattern of internal mix paint atomization for professional results. Depressing the trigger releases a pre-set amount of color which can be regulated by turning a needle adjustment screw at the back of the airbrush handle. Once the desired paint flow is set the airbrush will maintain the preset spray pattern until the user chooses to change it.

MODEL 200 BOTTOM FEED AIRBRUSH

Simplicity of use makes this the top choice for the advanced model painter or decorative stenciler. Also an excellent airbrush for painting posters, auto detailing and ceramics. The Model 200 will spray inks, dyes, watercolors, gouaches, properly reduced acrylics, fabric paints, modeling paints, automotive lacquers and enamels, most ceramic stains and glazes, Air-Tex®, Air-Opaque™ and MODELflex® airbrush colors. (Available in a single head design or detail design).

MODEL 200-20 DETAIL AIRBRUSH

The finest single action internal mix detail airbrush ever. The Model 200-20 is designed with the PPS paint flow adjusting system, enabling recurring accuracy in spray pattern and line control.

THE 200 GRAVITY FEED AIRBRUSH

Offers single action simplicity in a gravity feed airbrush. Allows for "close in" spraying. Excellent for model detailing and fingernail artists utilizing mini-stencils. (Available as Fine and/or Medium).

FEATURES

- * Choice of 3/4oz. (22ml), 2oz. (60ml), or 3oz. (90ml) paint jars, and 1/4oz. (7ml) free-standing color cup (Bottom feed only)
- * Color cup and one-piece jar adaptor taper-fit for quick color change (Bottom feed only)
- * Self-lubricating PTFE needle bearing enables continuous proper paint flow and prevents needle wear
- * PTFE head seal assures efficient air flow
- * Non-slip, one-piece trigger
- * Fine (F) - pencil line to 2" (51mm) spray pattern
- * Medium (M) - 1/32" (0.8mm) to 2 1/2" (63mm) spray pattern
- * For sets see page 10
