

Swivel Impact Sockets

SureGrip® Drive Design

SureGrip® Design drives the side of the fastener, not the corner. This not only provides increased strength, but also avoids the rounding of rusted or damaged fasteners, which can occur when using a sharp-cornered hex tool.

Great on Domed Fasteners

S•K Sockets feature extra recess depth to allow for use where threaded fasteners protrude above the nut or where the fastener is domed.

Gets Into Tight Spaces

The 30° flex angle on S•K Sockets allows the user to get at hard-to-reach fasteners. The socket can be positioned to the desired angle because of the heavy-duty spring.

1/2" Drive, 6 Point, Swivel Fractional Impact Sockets
