

HARDWARE ORGANIZER

The JIMS Hardware Organizers will guarantee all hardware is organized during powertrain tear-down, storage, and final assembly. The organizers include a specific stand for top end, cam chest, transmission, and primary. When combined, they all nest within each other taking up very little space and can easily fit in a deep drawer of a tool box. When preparing for final assembly, the stands can be turned on end to expose threads for ease of loctite application. The surface is powder coated in durable JIMS blue and includes silkscreened hardware position art with select torque specifications. *For more details see No. 742-IS instructions.*

- No. 742 - *Cam Chest - For cam cover, cam support and tappet cover hardware, 1999-2016 Twin Cam.*
