Collision Repair Tools

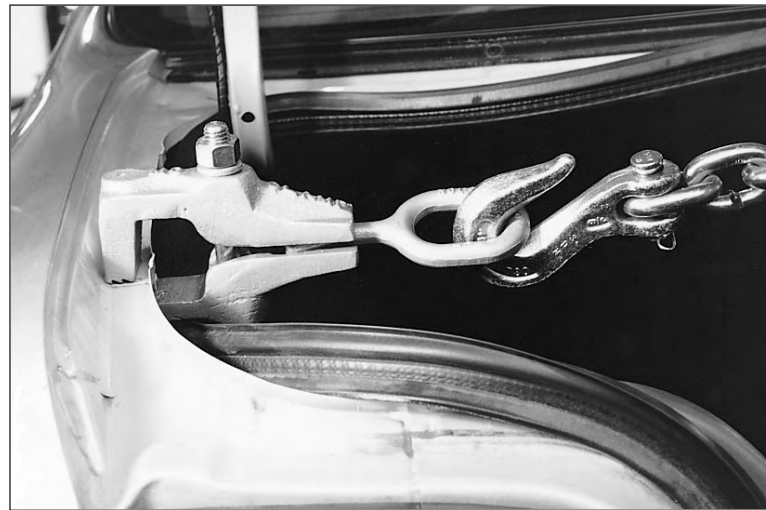

### Specifications:

Gripping Surface:  
1 1/4" wide (32 mm),  
1/2" deep (10 mm)  
Overall length:  
8" (201 mm)  
Weight: 4lbs (1.81 kg)  
Capacity:  
3 tons (2,722 kg)

- Great for single-lip flanges and inside rails and other restricted areas.
- Small, lightweight, responsive and TOUGH!
- Round drop-forged wedge helps to eliminate twisted chain!
- Bolt head holders for easy tightening.
- "Severe Duty" tooth design for aggressive pulling power!

The Dyna-Mo™ family of clamps has expanded in response to the technicians' requests for tough, durable, yet smaller pulling tools. Backed by 30 years of innovation and design expertise.

The #0655 Dyna-Mo™ Box Clamp's heat-treated jaws reach around flanges and other obstructions to get a grip on hard-to-reach surfaces.
