

# ELECTRICAL & BATTERY

## BATTERY FILLER

Part No. 604

Dry charge battery filler attaches to standard acid-pac tube. Features "Cell-Eye" to prevent over-filling. Ends acid spills, drips and leaks. No more burns or holes in your clothing. Positive thumb release valve controls acid flow. Comes with spacers to adjust cell-fill level. Full instructions included.

## SMALL BATTERY FILL ADAPTER

Part No. 605

Allows use of No. 604 Activator® Battery Filler to fill small batteries. Made of high strength nylon material.

## SIDE TERMINAL BOOST ADAPTERS

Part No. 311

Nickel-plated steel adapters snap on to terminals. No need to remove cables. Fits all OEM replacement terminals. Five hundred amp capacity.

## SPARK PLUG STARTER SET

Part No. 492

Set includes 3-inch and 6-inch starters. Six-inch length is designed for coil-on plug applications and other engines with recessed spark plugs. The shorter version is for other applications where space is limited. Tools are made of flexible, heat-resistant plastic to reach into recessed areas or over, under and around hot manifolds. Shaft is stepped to grip insulator. Non-slip, black grip surface for sure handling.
