

## Containment Boom #C-BOOM18-100 - 6" Float / 12" Skirt 100'/section

Quickly contain spills and debris on moderately choppy waters. Our medium-duty non-absorbent Boom floats to keep oil from spreading into or out of a contained area while the skirt hangs below the surface to help prevent spills from creeping underneath.

- Internal foam float forms a barrier against oil and debris above the surface; tension cable adds strength and rigidity
- Flexible PVC skirt hangs below surface to keep pollutants from escaping; ballast chain adds weight to help keep skirt taut
- Heavy hinge points provide stability, float integrity and durability in wave conditions; connect Booms together to form any length
- Quick and easy to deploy, even using a small boat with outboard motor
- Versatile, medium-duty Boom is ideal in harbors, rivers, bays, lagoons, API separators, inland waterways, sheltered water, canals, coastal waters and other areas with moderate to choppy flow

### C-BOOM18-100 Specifications

<b>Dimensions:</b>	100' L x 18" H
<b>Shipping Dimensions:</b>	60" W x 60" L x 70" H
<b>Sold as:</b>	1 per package
<b>Color:</b>	Orange
<b>Composition:</b>	22oz PVC Fabric
<b>Weight:</b>	220 lbs.
<b># per Pallet:</b>	6
<b>Incinerable:</b>	No
<b>Ship Class:</b>	100

### Metric Equivalent Specifications

<b>Dimensions:</b>	30m L x 45.7cm H
<b>Shipping Dimensions:</b>	152.4cm W x 152.4cm L x 177.8cm H
<b>Weight:</b>	99.8 kg

## C-BOOM18-100 Technical Information

### Warnings & Restrictions:

There are no known warnings and restrictions for this product.

### Regulations and Compliance:

40 CFR 112.7(c)(1) - Facilities must have "appropriate containment and/or diversionary structures to prevent discharge oil from reaching a navigable water course."

33 CFR 154.1047(c)(2) - Concerning navigation and navigable waters, a facility which handles, stores or transports Group V petroleum oils must identify response plan resources such as containment booms and other methods.
