

Design House[®] Mission Statement

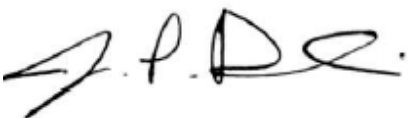

We seek to benefit our customers by sourcing quality products at the best value, while providing leadership in multi-category product development, consolidation, and logistical support.

Dear Design House Customers,

It certainly has been an interesting past year! With the COVID-19 pandemic and all the repercussions of that issue, there were significant changes to the home décor and construction industries. We've seen increased spending on home remodeling and renovations, given the trends of working from home, as well as increased desire in owning or renting larger residences. Whether consumers and professionals buy online or offline, there's been more product research completed online than ever before. I encourage you to check back at www.todaysdesignhouse.com to find both product updates, as well as a new PDF version of this catalog, which includes new products as they are introduced each and every month.

We have utilized our online learnings to provide new and expanded product offerings, which you will see reflected in our catalog this year. We are excited to launch new categories, such as sink accessories and recessed mirrors, and expand our existing offering with new finishes, like matte black and satin gold. To create efficiencies in our business and for our customers, we have updated all packaging for locksets that will allow them to be shipped more quickly and safely to our end users. This new packaging requires no overboxing, only a shipping label needs to be added, and the package can be out the door. In addition, there is reduced waste (we've saved 8,000 pounds of plastic!) from viewboxes, which saves space in our warehouse, and it is easier for contractors to open as well! Along with new packaging for locksets we have created multipacks for products in our hardware category to provide a more efficient buying experience.

As we continue to navigate the ever-changing environment that we all work and live in, we are excited for the new opportunities and growth that are upon us in 2021!

JP Drevline
President/CEO

Discover our Newest Products

Gracelyn Lighting Collection

The modern look of this light collection blends seamlessly with any design aesthetic. It features clear, seeded glass and comes in a variety of fixture styles. In 2021, look for expanded finish and fixture style offerings in this collection.

Beginning on page 26

Brookings Vanity Collection

New finishes of Gray and Modern Birch are now available in this simple, shaker-style vanity design that coordinates well with any style, from rustic to modern.

Beginning on page 152

Mills and Ian Showerheads

These sleek and modern showerheads are packed with features to upgrade your bathroom with a simple install. The Mills features six spray functions, with one being a unique eco-friendly setting that reduces flow to a drip, while maintaining temperature when returning to a full spray. The Ian is dual function with a push button in the center of the showerhead that toggles between its two spray settings.

Discover our Newest Products

Millbridge Bath Accessories

Tried and true is the Millbridge collection of products. To expand on its popularity we are now offering the full collection of bathroom accessories in a sleek and modern matte black finish.

Pages 142-143

Sinks and Accessories

New to the Design House family of products are two stainless steel sinks and accessories for the kitchen, including a roll out drying mat and multiple sink strainers to add convenience to your kitchen.

Page 100-101

Cyprus Medicine Cabinets

These frameless medicine cabinets come assembled and ready for either recessed or surface-mount installation. Their sleek, frameless design provides greater mirror space and added style.

Our Whole House® program is a series of product collections that are designed to match across multiple categories - from bath accessories and faucets to vanity lights and cabinet hardware. This program is used by architects, developers, interior designers, and homeowners to create a cohesive style from room to room. With our TruMatch® system, each Whole House® collection features a coordinated style with a matching finish, and it is easily identified by the TruMatch® logo. The TruMatch® program uses computerized plating finishes during our manufacturing process to provide the highest quality, appearance, and durability. Plating finishes are designed and tested to withstand over 96 hours of salt spray and are guaranteed to give you years of performance.

LED bulbs are available for purchase. Please contact your sales representative or customer services for further details.

Recessed Lighting Product Knowledge

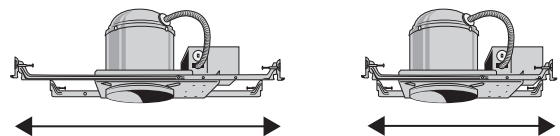

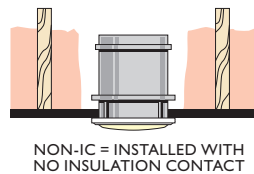

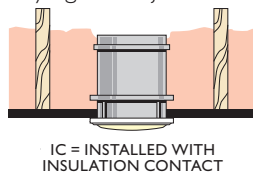

Certifications

UL or ETL listed to ensure highest quality. All recessed housing and select recessed trims are UL or ETL listed for use in damp locations. Washington State Energy Code compliant. All housings comply with WSEC air sealing requirements to limit heat loss and moisture movement. Recessed construction packaging can be sold as a single unit or as a contractor pack from the same kraft box.

Housings

Housings are adaptable to both IC/non-IC applications. 6" housings available. Adjustable nail-in hanger bars are designed to fit varying width joists.

ALL HOUSINGS ARE AIRTIGHT AND SUITABLE FOR DAMP LOCATIONS

Photocontrol Features & Benefits

Adjustable light sensitivity slide to accommodate high traffic areas

Provides extra security by keeping areas lit when dark outside

Installs on standard outdoor light fixtures or electrical boxes for efficient dusk-to-dawn, ON/OFF control

Outdoor operating temperature range of -40°F to 140°F (or -40°C to 60°C)

Compatible with LED, incandescent, and high-intensity discharge (HID) lights

1800W Tungsten and 1100VA Ballast

Outdoor Lighting Product Knowledge

Certifications

UL or ETL listed to ensure highest quality. All outdoor wall mount and post lights are UL or ETL listed for use in wet locations. All outdoor pendant and ceiling mount lights are UL or ETL listed for use in damp locations.

Dark Sky fixtures minimize glare, reduce light trespass, and protect our natural night environment.

- Fully shielded light fixture: all light emitted by the fixture, either directly or indirectly, is projected below the horizontal plane.
- Fully cut-off light fixture - no light is emitted above the horizontal plane.

Finishes

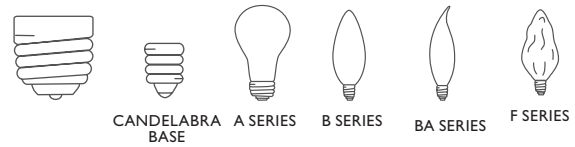

Computerized plating finishes are used in our manufacturing process to provide the highest quality, appearance, and durability.

TruMatch® finishes ensure matching finishes across all categories from bath accessories and faucets to vanity lights and cabinet hardware.

Lamping information

INCANDESCENT ↔ LED CONVERSION					
Lumens	220+	400+	700+	900+	1300+
 Incandescent	25W	40W	60W	75W	100W
 LED	4W	6W	10W	13W	18W

INCANDESCENT AND REPLACEMENT LED

M = MEDIUM BASE REQUIRED
C = CANDELABRA BASE REQUIRED

LED LAMPS LED

LED bulbs are available for purchase. Please contact your sales representative or customer services for further details.

Post lights

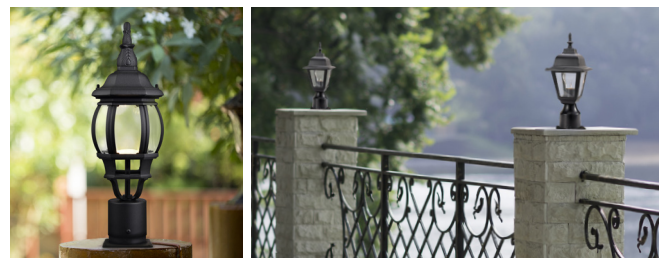

Post lights are fixtures that mount on top of posts or pier mount adapters. These are best used in driveways or pathways to radiate light in all directions.

MOUNTING OPTIONS

Lamp Posts

Lamp posts usually come in 4' to 6' lengths. Post lights mount directly to the post and do not require a pier mount adapter.

Pier Mounts

Pier mounts look similar to post light bases, but they are used to secure the post light to the top of a wall or column.

Ceiling Fans

List price: \$63.49

- Oil rubbed bronze with alabaster glass
- Fits light kit adaptable ceiling fans with a ½" threaded center post
- Includes three 4.5W LED candelabra base bulbs

LED Light kit

156505

List price: \$63.49

- Satin nickel with alabaster glass
- Fits light kit adaptable ceiling fans with a ½" threaded center post
- Includes three 4.5W LED candelabra base bulbs

Remote Control

154286

List price: \$68.95

- Universally adaptable
- Fan on/off function
- Light on/off function and dimmer
- 3-Speed fan control
- Operation range up to 30 feet

¾" Diameter downrods

For optimal cooling, choose the downrod length to position the fan at approximately 8 to 9 feet above the floor. To calculate downrod length, use the following formula:

(Ceiling height in feet - 9) * 12 = recommended downrod length

PRODUCT #	LENGTH	FINISH	LIST PRICE EACH
153460	12"	Satin nickel	\$11.95
153494	12"	Bronze	13.49
153437	18"	White	13.49
153478	24"	Satin nickel	15.49
153502	24"	Bronze	15.49
153452	36"	White	16.49
153486	36"	Satin nickel	18.49
153510	36"	Bronze	19.95

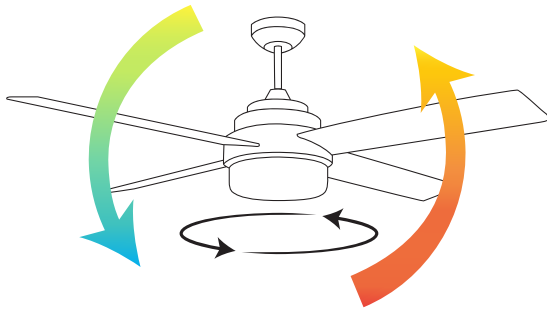

Ceiling Fan Product Knowledge

Certifications

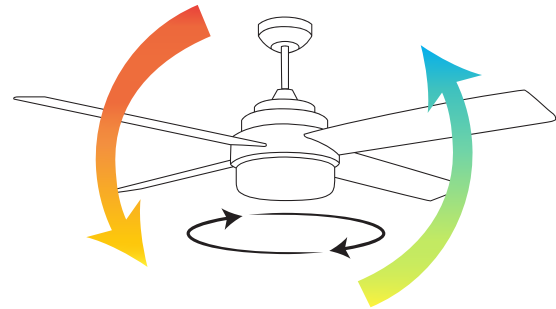

Indoor/outdoor fans are UL/ETL listed for use in damp locations.

Save energy and money, add comfort

SUMMER : COUNTER - CLOCKWISE

Circulates the air and creates a gentle cooling breeze. With a ceiling fan, 78° can feel 72°. Supplements or even replaces air conditioning.

WINTER : CLOCKWISE

Breaks up the stratification of heat on the ceiling which forces the warm air downwards. Temperature variation ceiling to floor can be 15°. Room will be warmer at lower thermostat setting.

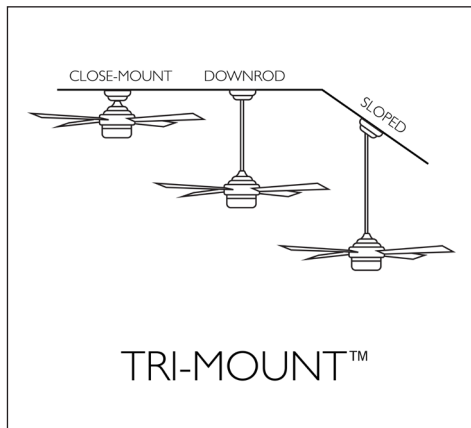

Energy efficiency data

Three energy efficiency data points are provided for all Design House fans. Comparison: 49" to 60" ceiling fans have airflow efficiencies ranging from approximately 51 to 176 CFM/Watt at high speed.

- **Airflow** at high speed measured in cubic feet per minute (CFM)
- **Electricity use** at high speeds (excluding light kit) measured in Watts
- **Airflow efficiency** at high speed measured in CFM/Watt

Mounting

Hugger fans mount directly to the ceiling with no downrod. Tri-mount adaptable feature allows the fan to be mounted with a downrod, in a close-up configuration or on a vaulted ceiling.

Plumbing Product Knowledge

Certifications

cUPC compliant

ASME A112.18.1/CSA B125.1 this standard covers plumbing products with supply fittings and accessories, such as kitchen faucet and bath room faucet including shower and body sprays.

ASME A112.19.3-2008/CSA B45.4-08 series this Standard covers plumbing fixtures made of stainless steel alloys.

Lead-free compliant faucets meet California AB1953, Vermont S-152, and Maryland HB 372 lead-reduction legislation.

ADA compliant faucets meets Americans with Disabilities Act (ADA) guidelines and ANSI A117.1 requirements. All Design House lever-handle faucets are ADA compliant.

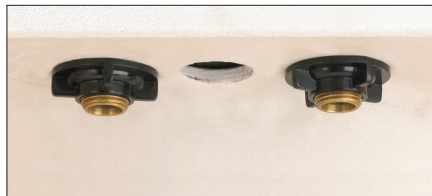

WaterSense label products have undergone independent certification and meet water-efficiency requirement.

Stainless Steel Sinks

Stainless steel sinks come in 18-gauge 304 stainless steel with mounting clips. All sinks are compatible with Design House drain strainers and roll up dish drying rack. Bottom sound deadening pads to reduce any noise/vibration while in use. Protective undercoating and sound barrier technology help prevent scratches, stains, or rust and help minimize any noise/vibrations while in use.

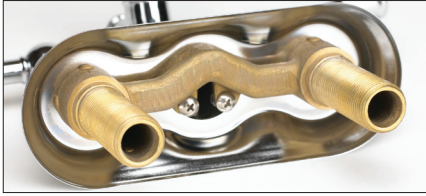

Technology

Faucet extension kits are now available to help complete faucet installations when the mounting surface is thicker than the threaded waterways. Installing the extension kit extends the available length of the waterways by an additional inch. The extension kit fits most faucets and is lead-free compliant.

Ceramic disc cartridges are wear-resistant ceramic plates with holes that align to let water flow or close to shut off water supply.

Plumbing Product Knowledge

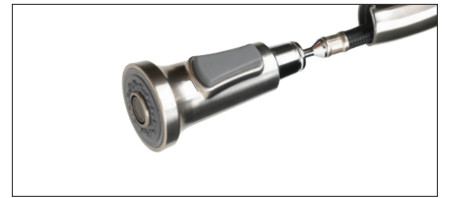

Lead-free compliant faucets have reduced the allowable amount of lead in kitchen and bathroom faucets to a maximum of 0.25%, down from the federal requirement of 4%. To accomplish this, we have used state-of-the-art technology in our engineering and manufacturing process. Compliant faucets will be identified on our packaging. All of our kitchen and bathroom faucets are compliant to federal requirement.

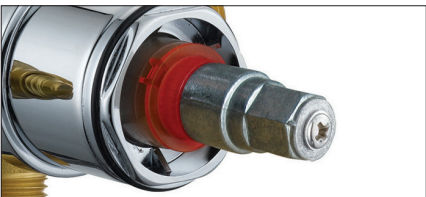

Air-injection technology accelerates the water to create more water pressure with less water; thus improving the spray force using a minimal 1.8 GPM of water.

Quick attach technology makes faucet installation easy by eliminating the need to use tools to attach hoses to the spout. The quick attach technology snaps together with a click so a novice or professional can be assured the connection is secure with an audible, visual, and tactile confirmation. The dual internal o-ring seal prevents the possibility of leaks.

Pull-down kitchen spray heads have toggle or push button control spray options that make it easy to change from aerated stream to spray functionality. The pull-out sprayer swivels 360° on a ball joint to ensure smooth and quiet operation with minimal effort.

Anti-scald ring is adjustable to prevent thermal shock by restricting the faucet's hot water output.

Washerless cartridges used in washerless faucets are plastic discs with holes that align to control the flow of water and eliminate leakage problems that result from worn washers.

Pressure-balanced valves on bath and shower faucets maintain a constant temperature even when the water pressure changes. This prevents the occurrence of both sudden scalding and extra cold water temperatures. All valves include anti-scalding device to protect children.

Easy clean shower heads make it easy to clean the mineral deposits that often clog shower heads. Simply wipe the rubber spray nozzles with your finger or a sponge to clean away any hard water deposits and prevent lime scale build-up.

Physical vapor deposition, or PVD, is a finish that is applied most commonly to bathroom fixtures and entry hardware due to their frequent exposure to moisture and/or salt air. This finish creates a durable surface that is scratch, corrosion, and tarnish resistant. It also aids in preventing finish discoloration or patina.

TruMatch® finishes ensure matching finishes across all categories from bath accessories and faucets to vanity lights and cabinet hardware. Plating finishes are designed and tested to withstand over 96 hours of salt spray and are guaranteed to give you years of trouble-free performance.

Lockset Product Knowledge

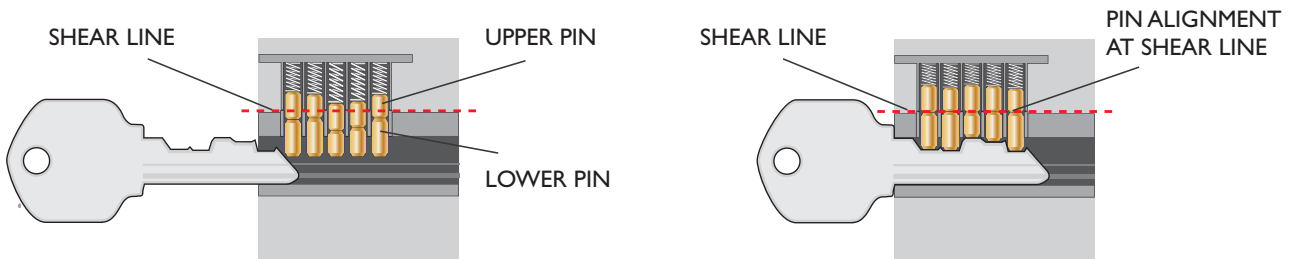

Certifications

ANSI Grade 3 products are tested to meet grade 3 residential quality standards.

5-Pin high security

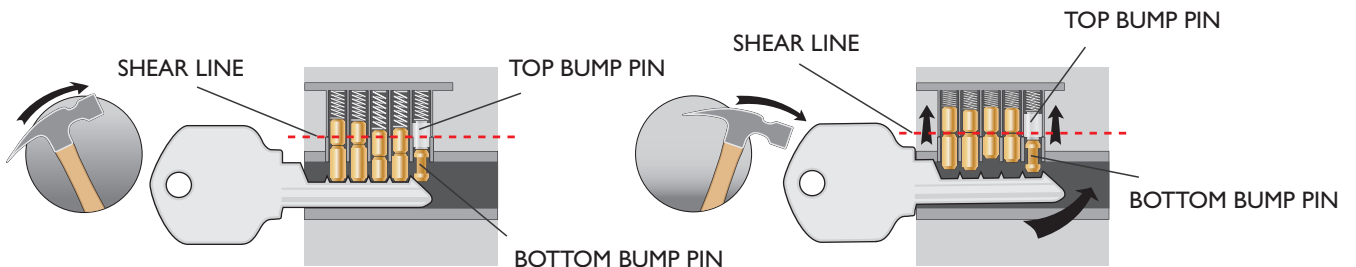

Design House locks are a 5-pin tumbler lock design, which is a system that requires a specific key to move a series of pins to release the lock. When the proper key is inserted, the lower pins will be pushed upwards, lining up both the upper and lower pins at the shear line where the cylinder and the outer housing meet. When the pin pairs meet at the shear line, it allows the keys to rotate the cylinder, enabling the door knob to become unlocked.

Anti-bump technology

Unlawful entry can be gained by skillfully “bumping” a pin tumbler lock. This action sends a shockwave through the key which then transfers to the pins causing them to rise in the cylinder walls, past the shear line. Once the pins travel past the shear line, a simple twist of the key opens the lock.

Design Houses anti-bump pin technology prevents the pins from moving past the shear line when they are “bumped” by not allowing sufficient force to move the pins, resulting in a securely locked door.

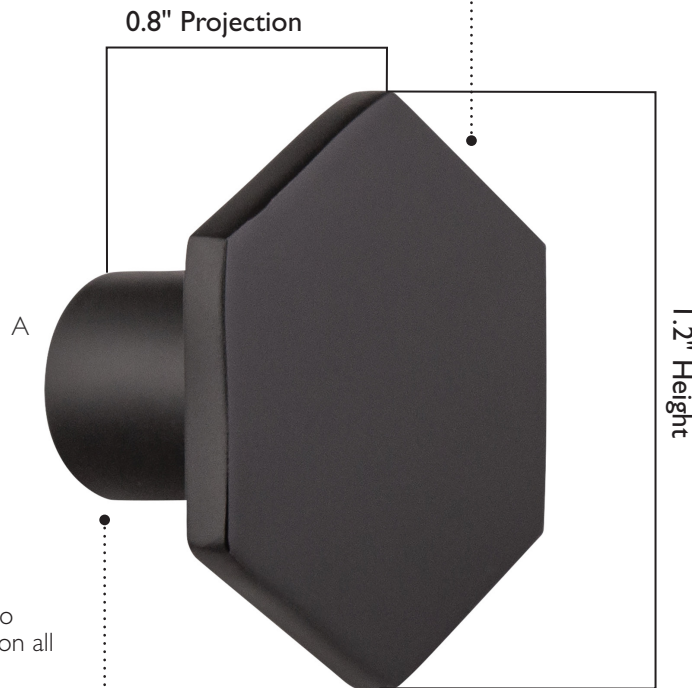

Solid Hexagon Knob Features & Benefits NEW

Modern style adds an updated look to any decor

Mounting hardware includes two screw sizes for easy installation on all types of drawers and doors

Available in three sleek finishes: satin gold, matte black, and satin nickel

Door and Cabinet Hardware Product Knowledge

Cabinet Hardware

Cabinet knobs are typically used on cabinet drawers or doors that are less than 18" wide. For cabinet doors and drawers that are over 18" wide, either two knobs or one cabinet pull could be used.

Knob dimensions are measured in diameter for round knobs and in length and projection for T-pull knobs, while cabinet pull dimensions are measured in overall length, projection and center-to-center.

Door Hardware - Hinges

Design House offers two different hinge sizes with three different corner shapes and four finishes. All hinges sold are recommended for indoor residential use.

Door Thickness	Width of Door	Hinge Size
1-3/8"	Up to 32"	3.5" Hinge
Up to 1-3/4"	32" to 36"	4" Hinge

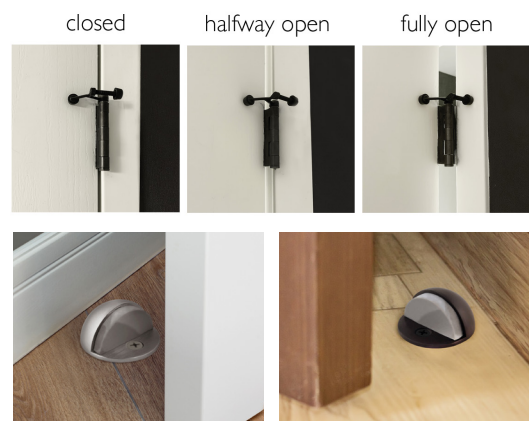

To determine which corner radius hinge is needed, use a coin (quarter or a dime) to measure the existing radius. Place the coin and note where the coin meets the flat edge of the frame/hinge. Matching a quarter indicates you have a 5/8" radius hinge. Matching a dime indicates you have a 1/4" radius hinge.

Door Hardware - Door Stops

Hinge Pin Door Stops go directly onto the door hinge pin. They are fully adjustable to limit how wide the door can be open. There are rubber caps on both sides to prevent the door from slamming open or closed and to protect the door and frame.

Dome Door Stops are floor mounted and help keep the door further away from the wall than standard baseboard door stops. Dome Door Stops are ideal for creating a blockade where a wall may be lacking, but they should not be installed on thick carpeting.

● Design House will be transitioning all of the mirrors and medicine cabinets into new SKU #'s with ISTA-approved packaging. This transition will be a running change to be completed by the end of 2021. By moving away from all of the old style packaging, it will allow us to get the product to the end user without damage in transit. Once inventory has been fully moved to the ISTA-approved packaging, the old SKU # (and packaging) will not be available. Please contact your sales representative for any questions or concerns.

▲ 541367	● 541367-ESP	Tri-view surface mount medicine cabinet	48" w x 6" d x 30" h	417.95

- Design House will be transitioning all of the mirrors and medicine cabinets into new SKU #'s with ISTA-approved packaging. This transition will be a running change to be completed by the end of 2021. By moving away from all of the old style packaging, it will allow us to get the product to the end user without damage in transit. Once inventory has been fully moved to the ISTA-approved packaging, the old SKU # (and packaging) will not be available. Please contact your sales representative for any questions or concerns.

Touch-Up Repair Kits

Works on all kitchen cabinets

Kit includes:

- 1 marker
- 1 fill stick
- 1 tool - plastic scraper

Look for this icon to find compatible bathroom vanities and kitchen cabinets!

PRODUCT #	DESCRIPTION	LIST PRICE
A 921387-WH	Touch-up repair kit in white	\$33.95
921387-ES	Touch-up repair kit in espresso	33.95

Finishes

Stain gives a natural look and enhances the inherent beauty of the wood.

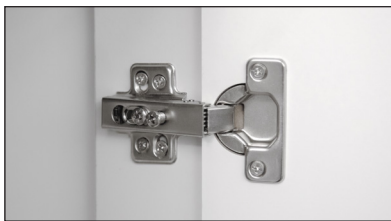

Paint is applied to obtain a rich, semi-opaque color that can not be achieved with natural wood alone.

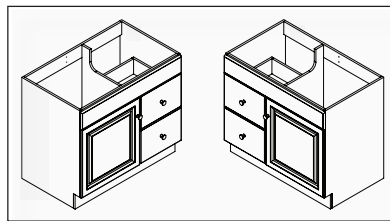

Laminate cabinets have a thin plastic substrate applied to the wood creating a smooth, durable finish.

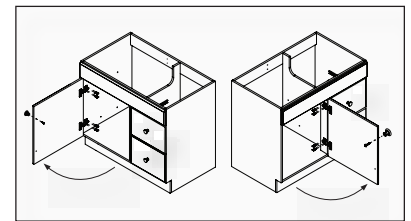

Features

Concealed, adjustable hinges allow for smooth, easy use. Some models may include soft hinges.

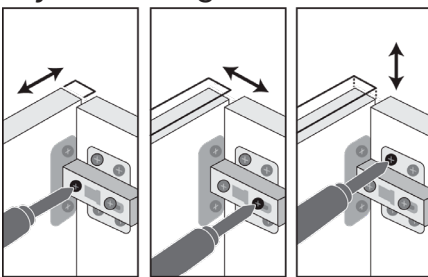

Reversible door and drawers on some Wyndham vanities makes them convenient in any space.

Reversible door feature on many Design House vanities allows the homeowner to mount the door for left or right opening.

Adjustable hinges

LEFT & RIGHT

IN & OUT

UP & DOWN

LEFT & RIGHT If you see a gap between both of your vanity doors, you can adjust the screw as shown in the photo to move the door to the left or right.

IN & OUT If you notice that the door is pulling away from the cabinet, you can adjust the screw as shown in the photo to adjust the depth of the door in or out.

UP & DOWN If the doors are not sitting at the same height, or the single door is sitting too high or low, you can adjust the screw as shown in the photo to change the height of the door.

Certifications

TSCA Title VI Compliant Design House furniture products noted as TSCA Title VI compliant meet these requirements.

The EPA (Environmental Protection Agency) published in the final register a final rule to reduce exposure to formaldehyde emissions from certain wood products. The EPA worked with CARB to help ensure the final national rule was consistent with California's requirement for similar composite wood products.

UL Listed to ensure the highest quality. All lighted cabinet fixtures are UL listed for damp locations.

Cultured Marble

- Fits Design House fully-assembled and ready-to-assemble vanities
- Stain resistant
- Pre-drilled for single hole, 4" centerset, or 8" widespread faucets
- Integral backsplash on select styles
- Available in sleeve pack or reship box
- Five year limited warranty

Cleaning and maintenance tips:

1. Slightly wet the vanity top by running a damp cloth over the surface.
2. Apply a mild, non-abrasive, neutral pH soap to the top
3. Wipe clean with soft, microfiber cloth and let dry.

Note: Avoid using abrasive cleaning materials. Harsh chemicals can damage the glaze on your cultured marble, making it appear dull. These cleaners can also cause chemical scuffs and scratches.

Kitchen Cabinet Product Knowledge

Touch-Up Repair Kits

Works on all kitchen cabinets

Kit includes:

- 1 marker
- 1 fill stick
- 1 tool - plastic scraper

Look for this icon to find compatible bathroom vanities and kitchen cabinets!

PRODUCT #	DESCRIPTION	LIST PRICE
A 921387-WH	Touch-up repair kit in white	\$33.95
921387-ES	Touch-up repair kit in espresso	33.95

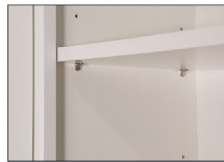

Features

SOFT CLOSE HINGES

EASY GLIDE DRAWERS

ANTI-SLIP SHELF PINS

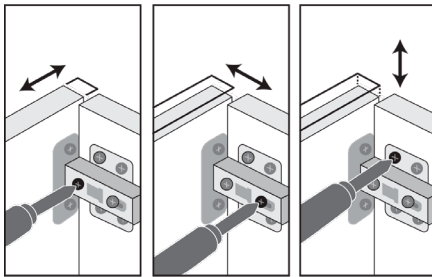

MATCHING FINISH INTERIOR

DOVETAIL SOLID WOOD DRAWERS

- Features 6-way adjustable soft close hinges which allow for smooth easy use.
- RTA cabinets offer high quality, durability, and materials with reduced overall cost.
- Adjustable shelves, easy glide drawer glides, optional slow close glides available.
- Single bracket, allows easy assembly in minutes, tightly secures cabinet components into one highly durable unit.
- Reversed raised panel door construction is a standard, high end feature.
- High-end 3/4" solid face frame construction, 1/2" plywood sides, 5/8" plywood shelves, 5/8" solid wood dovetail drawer boxes.

Adjustable hinges

LEFT & RIGHT

IN & OUT

UP & DOWN

LEFT & RIGHT If you see a gap between both of your cabinet doors, you can adjust the screw as shown in the photo to move the door to the left or right.

IN & OUT If you notice that the door is pulling away from the cabinet, you can adjust the screw as shown in the photo to adjust the depth of the door in or out.

UP & DOWN If the doors are not sitting at the same height, or the single door is sitting too high or low, you can adjust the screw as shown in the photo to change the height of the door.

Cleaning Tips

Note: There are many wood cleaning products available. To prevent damage, avoid any products that contain harsh chemicals, bleach, or ammonia. Also avoid any abrasive cleaning products.

DUSTING Wipe cabinets often with a soft, lint-free cloth. Cloth may be slightly dampened with water or a spray dust remover.

SPILLS To avoid permanent damage or discoloration to your cabinet's finish, clean spills immediately with a soft cloth dampened with mild soap. Dry with a separate soft cloth.

CLEANING To clean cabinets wipe them down with a soft cloth dampened with mild soap. Dry with a separate soft cloth.

Certifications

TSCA Title VI Compliant Design House furniture products noted as TSCA Title VI compliant meet these requirements. The EPA (Environmental Protection Agency) published in the final register a final rule to reduce exposure to formaldehyde emissions from certain wood products. The EPA worked with CARB to help ensure the final national rule was consistent with California's requirement for similar composite wood products.

Terms and Conditions - Design House

TERMS OF SALES & STANDARD POLICIES

- Possession of this catalog does not constitute permission to purchase or an obligation to sell.
- The minimum order requirement is \$50.00. Invoices totaling less than \$50.00 net will be billed at \$50.00 net.
- All products are shipped FOB (Incoterms 2010) shipping point.
- Parcel shipments may be subject to a \$5.00 handling fee.
- Freight charges are included with each order, unless the amount qualifies for prepaid shipping terms.
- Our acceptance of orders is made conditional upon your acceptance of these Terms.

PRICES

- All prices noted within this catalog are suggested list prices.
- All prices are noted in U.S. dollars (USD)
- Design House prices at the time of order supersede prices noted within this catalog. Written quotations with specific product pricing and with buyer orders placed within quote terms may maintain specific pricing.
- Purchases made in less than box quantities may be subject to a 10% upcharge.

PAYMENT TERMS

- Standard payment terms are Net 30.
- Standard payments method is ACH; please contact ar@todaysdesignhouse.com for set up details.
- Send Payments to:

DHI Corp.
P.O. Box 734146
Chicago, IL 60673-4146

- Past due accounts may be charged an interest rate of 1.5% per month (18% per annum), not to exceed the maximum interest rate allowed by law. Buyer agrees to pay any collection costs incurred by Design House or its Agents in collection overdue balances.
- Design House may exercise lien rights on projects where payment has not been made in full.

TAXES

- Buyer agrees to pay all current or future federal, state, or local taxes related to any Purchase Order provided to Design House.

ACCOUNT INFORMATION

- Please provide your Account Number when ordering.
- For New Accounts:
 - A minimum order of \$1,000 is required
 - Account is subject to credit approval by Design House's Accounting Department
 - A valid resale tax # is required
 - Payment setup of ACH is required

ORDERING

- Orders may be placed with the following methods:
 - EDI Transfer – Please contact your Sales Representative or Customer Service for details
 - Customer Portal (B2B E-commerce site, orders.todaysdesignhouse.com/Home) – Please contact your Sales Representative or Customer Service for details
 - Email: cs@todaysdesignhouse.com
Phone: 800.558.8700
Hours are: 7:30AM-5:00PM, Monday through Friday, Central Time
Fax: 262.236.4577

DESIGN CHANGES

- Design House reserves the right to make changes without notice to its products or packaging. Please note that all specifications are approximate and dimensions are nominal.

Terms and Conditions - Design House

SHIPPING

- Specified shipping dates are approximate and Design House shall not be bound to dates, but will strive to satisfy the specified dates. Delays, both in manufacturing and those outside the control of Design House (e.g. Acts of God or delays in transportation) may affect shipments.
- Please notify Customer Service within five (5) days of receipt of order of any shortages or variances in quantity. Design House shall not be responsible if shortages are not reported within this period.
- Unless otherwise agreed to in writing, shipments and route choice will be selected by Design House.
- Unless otherwise agreed to in writing, customers are responsible for shipping costs.
- Shipments requiring a lift gate will be charged at \$75.00 fee, even if free freight minimums are satisfied.

DESIGN HOUSE® NON-DEFECTIVE RETURN POLICY

- Customers may return non-defective products to Design House for credit. The following criteria must be met for all non-defective returns:
 - Products must be returned to Design House's Mequon, WI Distribution Center located at:

Attn: Returns
5205 W. Donges Bay Rd.
Mequon, WI 53092

- Returns are allowed within 180 days of purchase
- Non-defective returns are allowed up to 1% of previous calendar year of customers' net purchases
- Products must be in new, resalable condition
- A restocking fee of up to 25% may apply
- Box-pack items must be returned in full box-pack quantities
- Discontinued products are not eligible for return
- Customer pays return freight
- Credits paid based on original purchase price
- Custom or special order products are not eligible for return
- Returns may take up to 15 days to be credited
- Returns require a Return Merchandise Authorization Number (RMA #) before being returned. Please contact your Customer Service Representative at 800.558.8700 or cs@todaysdesignhouse.com to receive an RMA #.

DAMAGED OR DEFECTIVE PRODUCTS

- Missing or damaged parts – Please contact Customer Service at 800.558.8700 or cs@todaysdesignhouse.com to have a replacement part sent.
- Defective goods – In cases involving defective product, materials and/or workmanship covered under standard warranty terms, please contact Customer Service at 800.558.8700 or cs@todaysdesignhouse.com, as returns require a Return Merchandise Authorization Number (RMA #) before being returned.
- Products must be returned to Design House's Mequon, WI Distribution Center located at:

Attn: Warranty Claims
5205 W. Donges Bay Rd.
Mequon, WI 53092

- Design House is not responsible for any damages post-shipment and Buyer agrees to indemnify and hold harmless Design House against any claims related to such damages.

BUYER'S REMEDIES

- The Buyer's exclusive and sole remedy for any breach of contract or warranty shall be limited to the replacement or repair of products as noted in with these Terms.

CO-OP ADVERTISING POLICY

- Please contact your Sales Representative for information on Design House's Co-Op Advertising Policy.

Design House® Warranty

The Design House Products listed below are under warranty to be free from defects in material and workmanship from the date of the original purchase through the time period specified below with the following limitations:

1. The owner of the product claiming under this warranty must be the original owner of the product and must occupy the residential premises upon which the product was originally installed. This warranty does not cover industrial, commercial or business use of the product.
2. The product must have been purchased from an authorized Design House dealer. A copy of the bill of sale including the date of purchase must be presented to Design House as the proof of purchase.
3. This warranty does not protect against malfunction or other failure caused by abuse or misuse including but not limited to repair by persons not authorized by Design House, improper handling or maintenance, improper installation, modifications of any kind including painting or use for purposes other than intended or in locations subject to conditions not specified on the packaging.
4. This warranty does not cover product finish on any products with the exception of products covered by a specific finish warranty which warrants the product to be free from finish defects in material and workmanship. Finish warranties do not cover scratches, abrasions or deterioration due to the use of paints, solvents or other chemicals.
5. It is recommended that installation be done by a qualified professional. The customer has sole responsibility for proper installation in compliance with all local and state code requirements.
6. This warranty specifically excludes claims for indirect, incidental or consequential damages.

(Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.)

This warranty is given in lieu of all other warranties expressed or implied, written or oral. No employee, agent, dealer or other person is authorized to give any warranties on behalf of Design House. The customer's legal rights are limited to those stated specifically in this warranty statement.

With proof of purchase, Design House, at our discretion, will repair or replace the defective product or will refund up to the original purchase price of the product within the warranty time period. The customer shall be responsible for all costs incurred in the removal, reinstallation and shipment of the product for repair. If a material or workmanship defect is found, please call Design House customer service at 800.558.8700.
