## IRWIN® Impact Performance Series™ Drilling, Driving and Extracting Accessories are Designed for Impact Drivers.

Based on the increasing popularity and frequency of use of impact drivers on the jobsite, IRWIN now offers the broadest range of impact driver accessories in the market. While some accessories currently marketed for use in impact drivers are only compatible with impact power tools, IRWIN's Impact Performance Series™ accessories are engineered specifically for use in impact tools.

From the right length bit, to the most needed, most used diameters, tip types, bolt, socket and drive sizes; the expansive IRWIN Impact range provides the right impact accessory for drilling, driving and extraction applications. IRWIN Impact Performance Series delivers innovative solutions that allow trade professionals to do more than ever before with their impact drivers.

## Impact Nutsetters / Fastener Drive Sets

### IMPACT MAGNETIC NUTSETTER FEATURES

1. Lobular design drives fastener on side instead of corner for less stripping and longer life
2. Rare earth magnets hold fasteners securely with four times the hold of standard magnets
3. 1/4" quick-change shank is designed to work with impact drivers, and reduces slipping in standard drill chucks

### IMPACT JETPOINT BIT FEATURES

1. One-piece construction withstands higher torque loads than standard quick-change bits
2. Exclusive JETPOINT™ tip minimizes walking, delivers 10X faster starts, and stays sharp longer\*
3. Made from premium high speed steel with black oxide finish for added corrosion resistance
4. 1/4" quick-change shank is designed to work with impact drivers, and reduces slipping in standard drill chucks

ADAPTERS AND EXTENSIONS

### IMPACT SCREW-GRIP EXTRACTOR

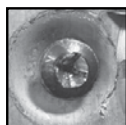

## FEATURES

1. DoubleLok Technology™ ensures both ends of bit lock securely in impact drivers and quick-change chucks, enabling use of a single bit to remove stripped, damaged or rusted screws and small bolts in three easy steps: drill, flip bit, and extract
2. Manufactured with M2 high speed steel and extra-hardened for maximum durability and long life with impact drivers
3. Tip of drill end is designed to start fast with minimal walking, and tip of extractor end is serrated for increased torque to remove even the toughest bolts and screws

1876222
