HARDWARE PRODUCTS

Catalog

CHANGE IS GOOD....

Shepherd Hardware Products completed the most comprehensive packaging update in over a decade, to incorporate color-coded blister cards and expand our product lines in original ways. Our tagline "Best on the Floor" is taken seriously and we continually look for ways to improve and bring value to everyone who sells and uses our products.

TABLE OF CONTENTS

Anti-Skid Pads 40-41

- Self-Adhesive Pads
- Heavy Duty Screw-In Pads
- Slider n Gripper Pads & Cups

Casters Heavy Duty 4-11

- Full Ranges 4-9
 - Soft Rubber
 - Hard Rubber
 - Semi-Elastic Rubber
 - Cast Iron
 - Polypropylene
 - Mold-On TPR
 - Mold-On TPU
 - Mold-On Polyurethane

Specialized Ranges 10-11

- Mold-On Rubber
- Phenolic
- Polyamide
- Pneumatic
- Toolbox
- Gate Casters

Casters & Other Solutions 16-21

- Household and Office Use
 - Furniture Sockets 17
 - Bed Mobility 17
 - Bed Risers 17
 - Bed Sliders 17
 - Appliance Casters & Rollers 18
 - Hooded Ball 18
 - Light Duty 19
 - General Duty 19
 - Twin Wheels 20
 - Universal Office Chair Kit 21

Cups 38-39

- Carpet Base Metal
- Clear Spiked Plastic
- Clear Smooth Plastic
- Smooth Rubber
- Woodgrain Plastic

Designer Casters 12-15

- Color 13
- Smooth 13
- Mags 13
- Clear 13
- Hub-Free 14
- Saucers 14
- Woody 14
- Display Racks 15

Door Management 50-51

- Door Stops
 - Cushioned
 - Spring
 - Rubber Wedges
- Wall & Knob Protection
- Wedgelt® Plastic Skims

Felt 28-33

- Commercial Grade Felt 30
- FeltGard 31
- FeltGard Plus 32-33

Glides 48-49

- Carpet Base Nail-On
- Cushioned Nail-On
- Swivel Nail-On
- Plastic Base Tack
- Phenolic
- Swivel - Nylon Base
- Threaded Stem
- WonderLevel

Lazy Susans 55

Leg Tips 44-47

- Rubber 45
 - Leg Tips
 - Bulk Packaging
 - Crutch Tips
- Clear Plastic 46
- Vinyl 46
- Low Friction 46
- Plastic Square 46
- Plastic w/Felt Base 47
- Plastic 47
- Plastic Inside 47

Material Handling 26-27

- Home Series
 - Wooden Dollies
 - Steel Tri-Dollies
 - Platform Cart
- Premier Series
 - Platform Carts
 - Wooden Dollies
 - Movers Blankets

Patio Furniture Line 52-53

Sliders 36-37

- Self-Adhesive
- Self-Adhesive with Screws
- Cushioned Nail-On
- Threaded Appliance Sliders
- Rubber Leg Tips
- Rubber Cup Sliders

Snowmobile Dolly 55

Store & Reuse Movers Pads 34-35

- SlideGlide® / Carpets
- FeltGard® / Hardwood
- Combo Packs / Carpet & Hard Surface Floors

Surface Protection 42-43

- Felt Pads & Blankets
- Cork Pads
- Foam Pads
- Bumpers
- Clear Pads
- Value Packs
- Boxed Kit

Wheels 22-25

- Hard Rubber 24
- Semi Pneumatic 24
 - Metal Hub
 - Plastic Hub
- Flat Free 25
- Pneumatic 25
- Wheelbarrow 25
 - Complete Wheels
 - Tubeless Tires
 - Inner Tubes

HOW TO SELECT THE RIGHT SHEPHERD CASTER

CONSIDER THESE FOUR ELEMENTS...

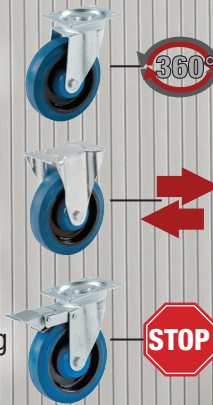

1 The Load Rating

Determine the appropriate load rating per caster by totaling the weight of equipment plus load, divided by the number of casters installed. Larger diameter wheels generally support heavier loads but configuring with a greater number of smaller casters in a design is another option for safe and supported material handling.

**Example: 500 lbs anticipated load + 80 lbs wooden cart / 4 swivel casters
= 145 lbs minimum capacity per caster**

2 The Caster Type

- **Swivel Casters:** Swivel 360 degrees which allows for easy movement of the load in any direction.
- **Rigid Casters:** Do not swivel. They support the load and are mounted in parallel for linear movement.
- **Swivel Casters with Brake:** Swivel 360 degrees with a convenient locking feature to keep loads in-place when needed.

3 The Wheel Material

- Make sure the wheel selected is large enough to pass over cracks in the floor and other obstructions.
- If the casters are to be used on a very rough surface, a larger wheel size is recommended.
- Rubber wheels cushion the load while offering noise reduction and consistent floor protection.
- Hard rubber, TPU, TPR, mold-on and cast iron wheels are more resistant to harsh conditions with potential chemical or oil contact.

4 Caster Combinations

How many swivel and rigid casters are needed?

Various effective caster combinations can be used in the building, repairing and refurbishing of mobile equipment, such as trucks, benches, tables, etc. Several mounting patterns are illustrated to the right.

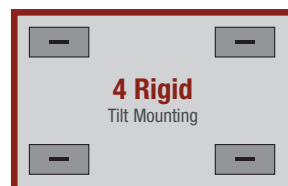

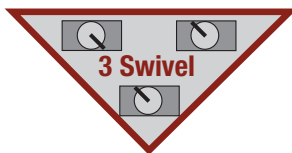

Compare Heavy-Duty Caster Characteristics

All casters are durable, non-marking, resilient to rough terrains and protect floors.

CASTER TYPE	SOUND DAMPENING	EXTREME TEMPS	SAFE FOR USE WITH				SAFE FOR USE ON

GATE CASTERS	●				●	●	●	●	●	●

Caster Type Combinations

— = Rigid ◻ = Swivel

Swivel casters allow for full mobility.

Add a set of rigid casters for more controlled mobility.

CASTERS

HEAVY-DUTY

Organized into Full and Specialized Ranges of heavy-duty casters, this assortment offers several wheel material types fitted with load-appropriate steel rigs and plates and smooth ball bearing action. Find the perfect caster for interior or outdoor applications.

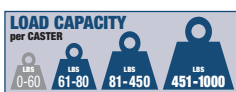

Full Ranges 4-9

- Soft Rubber
- Hard Rubber
- Semi-Elastic Rubber
- Cast Iron
- Polypropylene
- Mold-On TPR
- Mold-On TPU
- Mold-On Polyurethane

Specialized Ranges 10-11

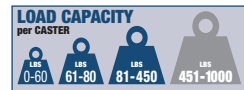

- Mold-On Rubber
- Phenolic
- Polyamide
- Pneumatic
- Toolbox
- Gate Casters

SEMI-ELASTIC SOFT RUBBER

3 - 5" range of quiet and smooth **semi-elastic** rolling casters. **Elastic blue** casters are extra-forgiving to maintain shape over obstacles and resist abrasion. Total Lock brake simultaneously stops the caster wheel rotation and swivel motion.

What are Total Lock Brakes?

A: Brakes that lock wheel and swivel simultaneously.

CAST IRON

2 - 6" range of temperature and heat resistant **cast iron** wheels for infrequently moved items on rough or concrete floors. 4" and larger casters are constructed with sturdier 1/4" plate mount and 3/4" steel roller bearings. Items 3056-3063 have grease-able bearings and raceways with solid wheels for smooth operation and heavier loads.

BED MOBILITY

Bed rollers are designed for wood and metal bed frames. Provides easy movement and maximum floor protection by distributing weight over larger area. Adjustable bed rollers (9532) utilize the wasted space beneath your bed and will safely accommodate storage boxes up to 10" high. **SLIDE GLIDE® bed sliders** reduce the friction between your bed and carpeting for easy movement to clean or rearrange the bedroom. Sliders snap directly into bed frame or are combined with included inserts to replace existing legs or casters and provide added inches of clearance for under bed storage.

WARNING: Cancer — www.P65Warnings.ca.gov.

- ✓ Hard Tread for Carpets
- ✓ Soft Tread for Hard Surface Floors

TIP:
For best floor protection, use soft tread on hard surface floors and hard tread on carpeted floors.

BED RISERS

Bed risers nest casters or bed posts up to 3" in diameter and elevate your bed 5-1/4" to create extra storage space or for easier in-and-out. Impervious to insects and water with a 300 lb. load capacity each, risers have countless uses indoors and outside.

SKU	MARKETS AVAILABLE	TYPE	UPC (0 39003)	COLOR	ELEVATED HEIGHT	LOAD CAPACITY EACH RISER	PIECES PER SET	CARTON PACK QUANTITY
9523	ALL	Injection Molded	09523 0	Black	6-1/8"	300	4	4

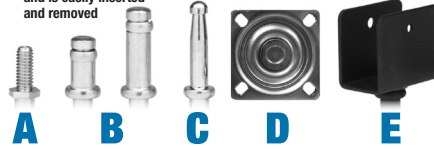

TIP:
When minor flooding seems imminent, bed risers are a temporary solution to elevate furniture to avoid water damage.

Furniture Casters

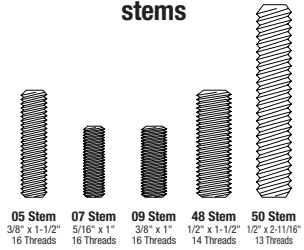

Attachment & Installation Styles

- A. Threaded** stem mates with a nut or threaded cavity for a secure install
- B. Grip Ring** stem locks into a socket inside furniture and is easily inserted and removed
- C. Friction** stem locks into a socket located inside furniture and is easily inserted and removed

- D. Plate** mounts directly to furniture with four screws
- E. U-Bracket** envelopes pressboard furniture for a secure install

Threaded stems

APPLIANCE CASTERS & ROLLERS

Appliance **casters** are low profile PP twin wheels that thread directly into heavy appliances. **Rollers** are low profile sets of PP wheels mounted to adjustable length platforms of steel, aluminum or plastic. Each solution allows for easy movement of heavy refrigerators and appliances.

WHEELS

An expanded selection of the most commonly used household, heavy-duty, lawn/garden and material handling wheels. The line includes economical rust free plastic hubs, sturdy ball bearing steel hubs for more demanding applications, flat free and pneumatic tires.

Hard Rubber	24
Semi Pneumatic	24
- Metal Hub	
- Plastic Hub	
Flat Free	25
Pneumatic	25
Wheelbarrow	25
- Complete Wheels	
- Tubeless Tires	

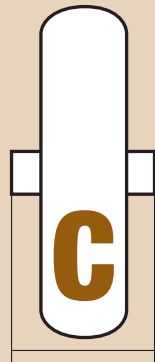

How to Measure: Tires & Wheels

The hub is a horizontal center opening of a wheel that mates with another product's axle or other mounting point.

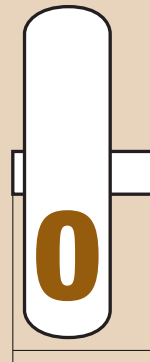

Centered vs. Offset

HUB POSITION

A centered hub is positioned so there is equal wheel clearance on each side.

Always choose the same style as wheel being replaced.

An offset hub allows for versatile uses, with different spacing from the wheel center to mounting points.

T CAUTION:  ALL replacement wheels and tires are **NOT** intended for highway use.

T CAUTION:  Before using pneumatic wheels:
• Inflate with hand pump only
• Do not over inflate

FELT

Shepherd Hardware is the recognized North American leader in felt floor protection. Felt allows for discreet scratch-free motion over wood, tile, and laminate floors, but can also be added to countless surfaces as a buffer and barrier at your home, the office or your vehicle.

Expanded product line for improved performance, especially in specialized conditions

COMMERCIAL GRADE FELT

Polyester and wool blend with extra aggressive adhesive for the toughest applications

30

FELTGARD

Extra-dense hardened polyester for heavy-duty performance

31

FELTGARD PLUS

Nail-on, screw-on, threaded and other attachments for the trickiest installs or security beyond adhesives

32

WOOD AND
HARD FLOORS

shepherd
HARDWARE PRODUCTS

TIPS:

Felt is great for behind the desk, the rear of the headboard, and in the sound dampening of cupboards. Use beneath countertop appliances, housewares, lamps and as a quick fix to anything that rattles.

For a stronger bond apply pressure during installation. Sitting on a chair is an easy way to apply pressure. Allow extra set-up time to enhance the bond.

Shepherd Felt Pads have been developed with durable and reliable combinations of materials and adhesives. These combinations have proven to stick very well over time and with use, but...

Surface Prep is Key

All surfaces should be clean and smooth.....

- Use isopropyl alcohol to remove any old adhesive remaining on surfaces.

- Use sandpaper to smooth rough or dirty surfaces.

- Remove sawdust or other debris and allow surface to dry completely before applying felt pads.

- Peel and stick.

- Repeat until all legs are prepped and pads placed in position.

Sticking Around

Shepherd Hardware self adhesive felt has been designed and refined over the years to maintain performance. Our most basic, SurfaceGard products are recommended for household uses such as under counter top decorations where there is little weight or movement. Industry-leading FeltGard pads are thicker and hardened, with a stronger adhesive to perform very well on chairs and other furniture. Re-defining the market, Commercial Grade felt boasts a super-aggressive adhesive and soft synthetic / wool blend for superior strength and durability.

Felt Pad Adhesion Test Ratings

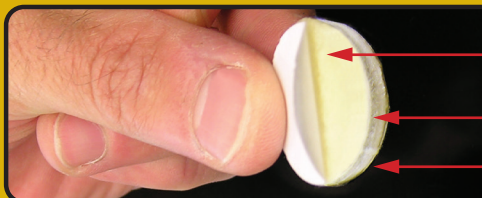

Sheer Force to Dislodge a Felt Pad

What makes this **COMMERCIAL GRADE FELT?**

Robust polyester is mated with natural wool to create a durable and ultra-strong yet soft felt blend.

Extensively tested and refined adhesive delivers maximum holding power

Stiff polyester layer maintains rigidity

Dense interwoven wool layer is gentle on floors

HEAVY DUTY FELT

Heavy duty self-adhesive pads are simple to install and designed to provide unmatched protection to furniture and surfaces such as hardwood, linoleum, vinyl, terrazzo, marble, etc. Available in either beige or brown to compliment light or dark wood finishes and are in the most popular sizes and shapes. **Self-leveling** pads are ideal for angled leg chairs. Thick foam layer allows for superior surface adhesion and grip. Corrects uneven wear of 3/8" or less on chairs and stools.

CARPET SLIDERS

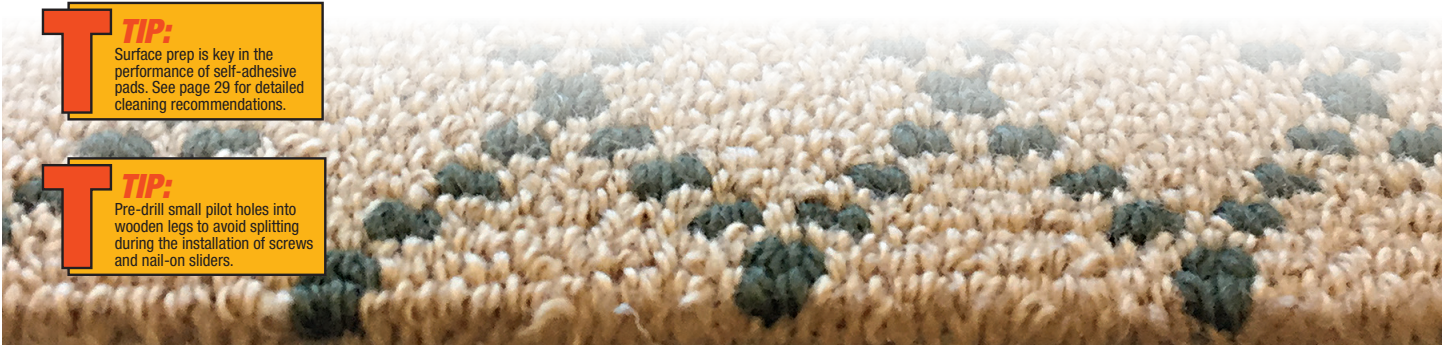

Our sliders are molded in a special & exclusive resin that is ultra-slick with an extra-low coefficient of friction for very easy sliding on carpet. Various attachment options are available for secure bonding to furniture. **Self-adhesive** sliders are felt-backed with convenient peel and stick attachment. **Steel-reinforced** self-adhesive sliders include a pass through hole and screws for a permanent installation. Cushioned **Nail-on** sliders are nailed into wooden legs and have a forgiving & sound dampening middle layer. Heavy-duty **Threaded** sliders are hexagonally shaped and attach to appliances and furniture with a 5/16" threaded stem. Black **Rubber leg tip** sliders fit over round wooden or tubular furniture legs. Black **Rubber cup** sliders are outfitted with a round and recessed rubber pocket to accept furniture feet up to the specified inside dimensions.

TIP: Surface prep is key in the performance of self-adhesive pads. See page 29 for detailed cleaning recommendations.

TIP: Pre-drill small pilot holes into wooden legs to avoid splitting during the installation of screws and nail-on sliders.

FURNITURE CUPS

Cups provide a stable non-marking base for furniture feet and come in a variety of materials and finishes for hard and carpeted surfaces.

- Carpet Base Metal
- Clear Spiked Plastic
- Clear Smooth Plastic
- Smooth Rubber
- Woodgrain Plastic

CARPET BASE METAL

Rigid metal cups with carpeted underside for contact with hard surface floors.

ANTI-SKID PADS

Self-adhesive anti-skid pads are applied to the underside of appliances, office equipment, or furniture to minimize motion and protect counter tops while offering sound and vibration dampening benefits. **Thinner** pads offer the same benefits with a more subtle, lower profile. **Heavy-duty** anti-skid pads are round vinyl-coated and steel reinforced pads that are screwed into the underside of furniture to minimize movement and protect hard surface floors while offering sound and vibration dampening benefits. To avoid splitting wood, pre-drill and use included screws.

SLIDER 'n GRIPPER

SLIDER 'n GRIPPER

Dual function **Slider 'n Gripper** are self-adhesive and screw-in woodgrain plastic bases with non-skid rubber rings to minimize furniture motion when positioned on hard surface floors and move easily and safely when tilted to slide on the hard plastic shell. **Sliders** are self-adhesive and screw-in woodgrain plastic bases that allow for safe and easy sliding on hard surface floors. 3/4" diameter design includes a snap-in slide, while the slide is integrated in the 1" diameter version. **Grippers** are woodgrain plastic bases and cups with non-skid rubber underside rings to minimize furniture motion on hard surface floors. Cups offer a concave nest that cradles bed frames, casters, or furniture feet.

TIP:
Screw-in Sliders 'n Grippers are not intended for use on angled legs.

GLIDES

Carpet Base glides are nailed into wood and not for angled or chair legs. **Cushioned** glides are nailed into wooden legs and have a forgiving & sound-dampening middle layer with either polished nickel or white plastic base and not for angled legs. Brass-plated **Swivel** glides are nailed into angled wooden legs and have a white plastic base. White **Rigid Plastic** glides are nailed into wood and not for angled or chair legs. Brass-plated **Tap-on Swivel** glides fit over tubular metal legs and have a white nylon base. Black **Rigid Phenolic** glides have a 5/16" threaded stem for easy leveling of infrequently moved items. **Threaded Cushioned** glides have a forgiving & sound-dampening middle layer with polished nickel base and 1/4" threaded stem for easy leveling with or without included plastic sockets.

TIP:
Nail-on glides are made for straight legs only. Swivel glides are made for angled legs.

TIP:
Always pre-drill 1/16" starter hole before hammering nail-on glides to avoid splitting wood.

TIP:
Cushioned & rigid plastic glides are made for use on carpeting. Carpet base glides can be used on non-wooden hard floors.

Spring-loaded **Self-Leveling** table feet that automatically adjust to uneven floors and combat table wobble. One set contains both **FeltGard** pads and **SlideGlide** pads for performance on either hard surface floors or carpet.

DOOR MANAGEMENT

Door and wall-related products to control swinging doors and protect your home. Plastic shims are commonly used in the installation of doors and frames.

Door Stops

- Cushioned
- Spring
- Wedges

Wall & Knob Protection

WEDGE IT® Plastic Shims

DOOR STOPS

Self-adhesive **cushioned** door stops are applied to the wall opposite door knobs to protect the wall. Classic **spring**-type door stops are installed into and protect baseboards. Non-permanent **wedges** are positioned under door to limit or fix position. **Jumbo** size is fitted for larger and heavier doors with up to 2" clearance.

TIP:
Install off-center to avoid accidentally locking the door when door knob comes in contact with cushion on wall.

Terms of Payment

Net thirty (30) days from date of invoice with approved credit.

Minimum Prepaid Freight Order

\$500 minimum order for prepaid freight (standard ground) within the continental US for established accounts. Orders will be adjusted to conform to standard packaging quantities.

Product Specification

We reserve the right to adjust product specification in line with our policy of continuous development.

Return Merchandise

Written authorization must be obtained from Shepherd Hardware Products LLC before merchandise may be returned. All merchandise must be shipped on a pre-paid basis and is subject to a 20% handling charge.

Claims

Claims for shortage of goods must be made within three (3) working days from receipt of goods.

Pricing

Prices may be subject to change without prior notice.

Order Acknowledgement

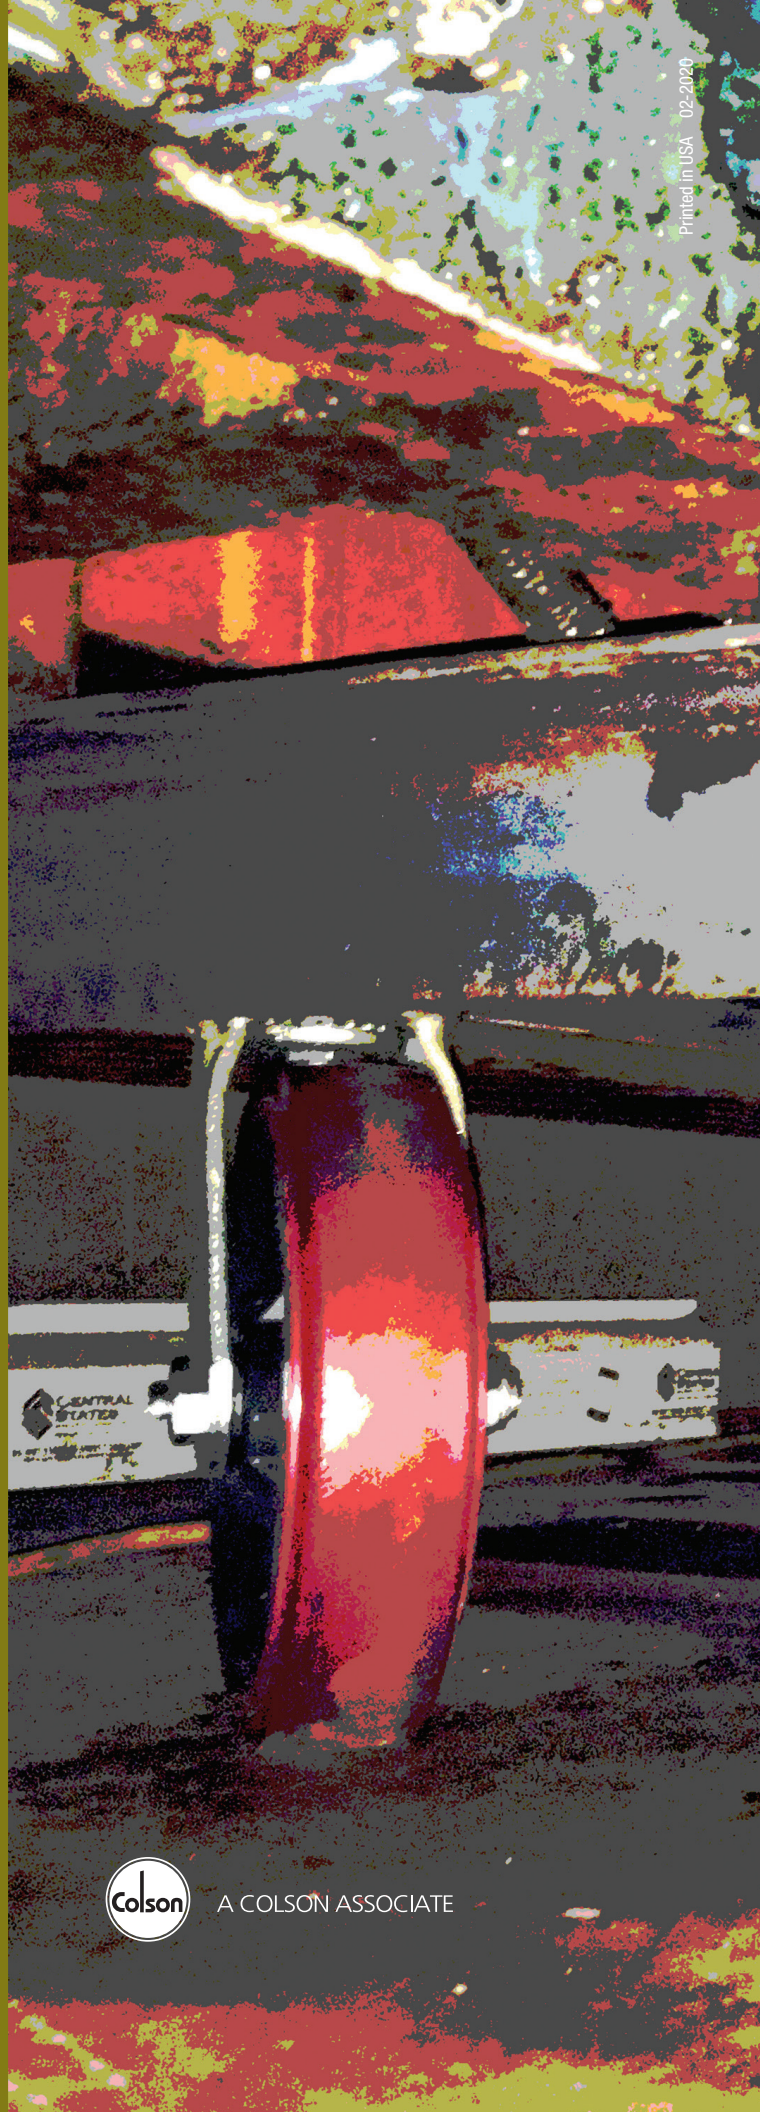

Confirmation/acknowledgement of order receipt is not sent as standard procedure.

Overdue Accounts

We reserve the right to charge a late fee of 1.5% per month on the unpaid total balance due when more than thirty (30) days past due.
