

Perfect for spinal instabilities, spinal stenosis, and chronic back pain, the Comfortland Discovery 2000 features a unique design that utilizes inflatable air cells to provide spinal decompression. Comfortable and easy-to-use, The Discovery 2000 also features removable anterior, lateral, and posterior panels to limit abnormal movement and unload pressure on the lower spine. The Discovery 2000 gives practitioner and patients the ability to customize the level of support, making it ideal for nearly any lower back pain.

Product #: CK-2000
