

Comfortland Deluxe OA

HCPC K0902 Approved

Indications:

Osteoarthritis

Rheumatoid arthritis

Meniscal cartilage derangement

Chondromalacia of patella

Knee ligamentous disruption

Sprains and strains of the
medial collateral ligament

Lightweight Construction

The Comfortland OA's lightweight design allows for longer periods of wear without discomfort, improving patient compliance.

Powerful Unloading Technology

The Comfortland Deluxe OA features an interchangeable unloading dial, designed to quickly and easily unload both the medial and lateral compartments of the knee, helping to relieve pain and prevent further degeneration.

Custom Fit

The CK-250 has a completely malleable frame, allowing practitioners to contour the deluxe OA for a truly custom fit without having to order a custom brace.
