

# Comfortland Ankle Gauntlet

HCPC L1902 Approved

Designed to help increase blood flow and provide pain relief for patients with diabetes, neuropathy, and arthritis, the Comfortland ankle gauntlet features a non-slip sole for stability as well as a single strap closure for easy application and adjustment. While providing moderate ankle support, the CK-319 is lightweight, easy to use, and has been known to increase the wearer's foot temperature by 2-3 degrees Fahrenheit.
