## Corrosive Chemical Storage Cabinet

DESCRIPTION

The Corrosive Chemical Storage Cabinet is the solution for storing non-flammable acids and corrosive liquids. This storage cabinet is constructed of 3/4" thick exterior grade plywood with a finished top and lined with a 1/4" polypropylene interior. Included is a removable back panel to access the venting behind the cabinet, 2" plastic containment drip pan, (1) lined adjustable shelf and 96mm pulls. This unit is available in either two doors or single door and is finished in Northwood's oak.
