

GG - 50

AIRSPEC[™] EYEWEAR WITH STAINLESS STEEL NON-RUSTING MESH LENS - GUARANTEED NOT TO FOG
Ref. WELGG50_

Product specifications

AirSpecs[™] are designed to protect the eye socket from pokes and prods of stationary or very low energy, non-fragmenting objects over 1 mm in diameter.

Great for humid environments...GUARANTEED Not To FOG!

Mesh 'lens' reduces visible light by 60%, so it acts like a sunglass to reduce glare.

Angle adjustments allows a customized fit for greater comfort and protection.

Lens: 0.45 mm stainless steel wire mesh with 0.8 mm openings

Frame: Nylon

Foam Padding: EVA Closed Cell

Strap: Elastic Fabric

Product's highlights & user's benefits

For humid environments where nothing else keeps lenses from fogging up.

Stainless steel mesh 'lens' provides limited hazard protection and allows air to freely pass thru for non-fogging protection.

Black anodized coating on steel mesh reduces reflections and glare.

Wraparound frame design with EVA foam provides a great face seal and eye socket protection.

Elastic fabric headband is adjustable for a comfortable, secure fit.

Certifications and Standards

USA STANDARDS

ANSI Z87.1-2010 American National Standards Institute - Occupational and Educational Personal Eye and Face Protection Devices
Basic impact (1" ball-drop): Impact resistance
