

# Elvex® VB-65 Full Brim Dielectric Visor Bracket

Fits All Major Brands of Full Brim Hard Hats! Attaches Arc Rated Face Shields for Lineman and Construction Arc Flash Compliance!

## Elvex® VB-65 Visor Bracket

Full Brim Hard Hats are commonly used in Utilities, Oil and Gas, Construction and outdoor applications. Easily attaches to ALL MAJOR BRANDS of Hard Hats to economically add face shield protection.

### Product Features:

- Quickly and securely mounts on all major brands of full brim hard hats to allow attachment of a variety of face shield options.
- Strong ratcheting spring securely holds face shield in up or down position.
- Stores face shield 'ready to use' over the hard hat and out of the way in an evenly balanced position to reduce interference with work activities and improves comfort and reduces fatigue.
- Helps Full Brim Hard Hat users to comply with the Electric Power Generation, Transmission and Distribution Maintenance and Construction (29 CFR 1910.269 and 29 CFR 1926, Subpart V) requirements for Arc Flash Protection.
- Dielectric/Non-conductive construction for electrical applications.
- Meets ANSI Z87.1.
- Item No. VB-65
