Self-Storing Feature-Fold down chaps to fit into one leg and zip closed. Easy to store and carry.

UL Certified
Meets ASTM Std. F-1897-2008.
Complies with ANSI Z133.

Key Product Features

- New improved zipper and Velcro® leg and thigh closures make the ProChapsZ™ easy to put on, adjust for comfort and take off while eliminating straps and loose catch points making the chaps safer to wear while climbing or working around chippers and other moving equipment.
- Features Prolar™ padding which effectively jams chain to quickly stop cutting action. Tested and certified by Underwriter Laboratories in accordance with ASTM F-1414 and meets ASTM Standard F-1897-2008 that requires an upgraded level of protection to chain speed of 2,750 feet per minute.
- Smart asymmetrical design (U.S. Patent No. 5,095,544), extended protection on left side of legs, where most injuries occur.
- Designed to meet the intent of ANSI Z133-2012, Sec. 8.6.3 and 8.6.4 by reducing loose strap ends and belts associated with the wearing of Chain Saw Chaps around Chipping Operations. By not having to don and then remove Chaps to alternately saw and operate chippers multiple times an hour, ProChapsZ™ allow Arborists to be more productive on the job site saving time and money.
- Full wrap-around calf protection helps protect legs from sharp branches, thorns and heavy brush.
- Apron design constructed from heavy-duty 1,000 denier, water and oil resistant. Cordura® nylon outer fabric for extra durability and longer wear in thorny and abrasive conditions.
- ProChapsZ™ are lightweight and breathable with open back design which prevents heat build-up to keep workers comfortable in hot conditions.
- New 6 in. x 12 in. x 2 in. deep 'productivity pocket' and sleeve for a chain saw 'wrench' has been added to hold wedges or other tools.
- Self-storing, adjustable 2 inch wide waist belt to eliminate that loose end catch point for added safety. Maximum waist size of 50 inches.

APPLICATIONS: for workers using chain saws, chippers and power equipment clearing roadways, removing debris, trimming, logging, farming, utilities, public works and vegetation management.

WASHING INSTRUCTIONS:

Wash by hand or in a washing machine on the gentle cycle using cold water and mild detergent. DO NOT use any bleach or harsh detergents as they can damage the fibers of the garment's protective pads. Hang to dry. DO NOT dry using a hot dryer.

WARNING!! Improper washing or drying will damage and reduce the protective features of the protective pads and may result in serious injury or death!

WARNING to USER

Elvex® ProChapsZ™ with Prolar™ IV protective padding are designed and certified by Underwriters Laboratories to meet ASTM F1897-2008 and the protective padding meets the Chain Saw Cut Resistance Test of ASTM F1414-04. This protective garment is designed to reduce the risk of injury to the body parts covered by the protective padding if contacted by a rotating saw chain. **THIS GARMENT PROVIDES LIMITED PROTECTION AND MAY NOT PREVENT PENETRATION OF THE SAW CHAIN AND WILL NOT PREVENT ALL INJURIES**, but may give the wearer extra time to react and thereby prevent or reduce the severity of injury.

This garment must be properly fitted and all garment fasteners must be used and snugly adjusted on the wearer. An unfastened or loosely fitted garment provides little or no protection. The protective garment must be worn at all times when operating a chain saw.

This garment is not intended to be a substitute for good chain saw operating practices. Carefully read and follow all safety and maintenance instructions in your current Chain Saw and Saw Chain Owner's or Safety Manual. The garment must be immediately replaced if it is damaged, improperly washed, cut, sewn, patched or otherwise modified or repaired.

FAILURE TO FOLLOW ALL OF THE ABOVE WARNINGS AND INSTRUCTIONS MAY RESULT IN SERIOUS PERSONAL INJURY INCLUDING DEATH!
