

# Globe Scientific Transfer Pipets

Globe Scientific offers the most extensive line of plastic transfer pipets for liquid handling procedures. Produced from a custom grade of low-density polyethylene (LDPE), these unbreakable one-piece pipets are used to draw and dispense liquids in controlled, reproducible drop sizes.

Plastic transfer pipets are the perfect substitute for breakable glass Pasteur pipets, which can be a danger to laboratory personnel. And, because they are completely disposable, there is never any cross-contamination which is associated with reusable rubber bulbs.

An extensive selection of capacities, lengths and tip styles are offered to accommodate different industry needs. For blood collection, Globe Scientific offers a line of blood bank pipets which feature a specially designed stem to fit into blood collection tubes. For diagnostic kits and small volume requirements, mini transfer pipets are the ideal choice. Choose fine tip pipets for research applications and for transferring liquids into small vessels such as multi-well plates. From mini to jumbo, standard to specialty, sterile and non-sterile, Globe Scientific offers a plastic transfer pipet to suit your needs.

New sizes, styles and packaging are frequently added to our line. Check the latest product offerings at: www.globescientific.com or call our technical sales department for assistance at (201) 599-1400.

#### **Features**

- Non-toxic and chemically inert to biological fluids and most acids.
- Can be heat sealed to use for liquid storage or transport.
- Pipets can be frozen in liquid nitrogen.
- Produced from a custom grade of low-density polyethylene (LDPE) to make them non-slippery.
   This makes Globe Scientific pipets easy to grip with gloves.
- Custom packaging is available. Please inquire.

#### **Technical Information**

- Temperature range: -50°C to 90°C
- Can be gas (EtO) sterilized

# **Packaging Options**

## **Non-Sterile Packaging**

Dispenser box, non-sterile

Globe Scientific's non-sterile transfer pipets are packaged in a unique dispenser box. This convenient box is small and compact and ideal for bench-top use. The hinged front panel opens for quick access to the pipets and can be closed when not in use to keep the contents clean. Exceptions: The exact volume pipets (page 3) are packaged in bags of 500, 10 bags per case, and the bellows pipets (page 10) are packaged in bags of 100, 12 or 20 bags per case.

## **Sterile Packaging**

Individually-wrapped (1/pack), sterile

10 pieces per bag (10/pack), sterile

20 pieces per bag (20/pack), sterile

## **Transfer Pipet Styles** Page **Exact Volume** Designed to dispense in precise volumes, these accurate and economical pipets are available in 5 sizes. 4 Non-Graduated These popular non-graduated pipets are offered in a variety of styles. Graduated 5-6 15 E 130 Designed for measurements, these pipets feature molded-in graduation marks that will never fade or wash off. Blood Bank Features specially designed stems to fit into blood collection tubes. 8 Narrow Stem The long, thin stems are flexible and can be bent to access narrow openings and small diameter tubes. 9 Fine Tip Ideal for dispensing small volumes, loading hemocytometers and transferring liquid to and from multi-well plates. 10 Bellows The accordion-shaped, high capacity bulb of the bellows pipet acts as a reservoir for filling and expelling liquids. The bulb provides strong suction for use with viscous liquids. 10 Extra Long Available in 9" and 12" lengths, these pipets are ideal for reaching into large bottles, 24-hour urine containers, jars and cylinders. Paddle Pipets 11 These dual-purpose pipets are used for small volume transfers and feature an integrated rigid paddle used for mixing, spreading and smearing. 12 Mini Most popular size for use in diagnostic test kits and where small volume samples are required. **Back Cover** Wide Bore ತ್ರ 18 150 일 ī Designed for the rapid and effective transfer

of viscous liquids and small particulates.

## **Exact Volume Transfer Pipets**

# Easy to use, economical and accurate!

These **exact volume transfer pipets** are produced from chemically resistant, low density polyethylene and are designed to dispense precise volumes. They are available in the 5 popular sizes shown below. Exact volume pipets are packaged 500 pipets per bag.

## **Wide Bore Transfer Pipets**

# For the rapid and effective transfer of viscous liquids and small particulates.

These **wide bore transfer pipets** feature a wide tip opening designed specifically for the transfer of viscous liquids and small particulates. They are useful in the biofuel, petroleum, water treatment, food/beverage and pathology industries. The pipets are manufactured from low-density polyethylene (LDPE) and are packaged in convenient dispenser boxes; 500 pipets/box, 10 boxes/case.

#### Ideal for transferring:

- Algae
- Small tissue biopsies and pleural specimens
- Sludge, oil, slurry
- Plant specimens
- Sauces, gravies, syrup and condiments

Wide Bore Actual Size

7 mL capacity – graduated to 3 mL – large bulb, wide bore tip

Catalog No.	Sterility	Packaging Information	Unit	Technical Data
135040	Non-sterile	500 pcs/dispenser box, 10 boxes/case	5000	• Total length: 125 mm (4.9")
