Leaders in science and innovation.

THE PLEATCO WAY

At Pleatco we're focused on bringing great new products and technologies to the market that truly provide the cleanest water filtration possible for the health, safety and happiness of every pool and spa owner. Our commitment to science and engineering defines us as an innovator and a leader. Our greatest asset is our truly collaborative team. We strive to be smart, accurate, and highly consistent. The combination of discipline and creativity provides us with great strength and flexibility giving us an agility to always push new boundaries and stay one step ahead of the game. Our common goal across the entire company is 'constant improvement' everyday. Our focus on exceptional customer service and support and the relationships that we build are the lynchpin of our success. We care about our customers and our community and take our responsibilities seriously. We approach each day with a passion and commitment.

QUALITY

- Pleatco uses the highest-quality raw materials in every product.
- 45+ years of research, engineering, and product development.
- Pleatco's strong infrastructure includes two manufacturing facilities using the most modern equipment and systems.

SERVICE

- At Pleatco, service is paramount.
- All products have Pleatco's 100% Customer Satisfaction Guarantee.
- Pleatco has the latest systems to assure the greatest efficiency.
- Every order moves from order entry to shipping.
- We pride ourselves on the great partnerships & friendships we build.

INNOVATION

- State-of-the-art research and testing facility.
- The strongest engineering staff in the industry.
- Constant stream of new products.
- Management committed to growth and new product development.

PEOPLE

Pleatco's employees are not only empowered with responsibility, but have the authority to make decisions. This enables our people to increase the speed of positive change and do what is necessary to take care of our customers.

STATE-OF-THE-ART MANUFACTURING

Pleatco achieved a vision to better serve clients with the main operations in New York and a second manufacturing and testing facility in Mexico and distribution center in California. These combined facilities allow products to be shipped anywhere in the United States quicker and more cost effectively than ever before.

LEADERS IN THE SCIENCE OF FILTRATION

With a full expert engineering staff in place, and an unparalleled test facility containing 40-thousand gallons of test water housed in indoor and outdoor labs, Pleatco is able to deeply examine and validate theories, materials, designs and competitive products in order to provide the very best filtration products on the market - tried, tested and true!

THE RIGHT PRODUCTS. THE RIGHT PEOPLE. THE RIGHT COMPANY.

- Contains more fibers per unit area offering far greater volume dirt holding capacity than other filtration fabrics
 - Reduced pore size distribution in the fabric provides impressive turbidity reduction and filtration flow
- Easily and efficiently captures dirt particles to achieve a deeper level of cleanliness and clarity than ever before
 - Uniformly placed weld spots make Pleatco Point bonded fabrics the strongest and most robust
 - Fabric returns to a high state of original performance after cleaning
 - Greater usability, longer cleaning cycles, and less service time.

Old School

Nobody talks about cores. Why? Because all of our competitors use PVC pipe with holes drilled in them.

Take a few seconds and look inside any of our competitor's cartridges and then look inside ours... you'll see the difference immediately. It's obvious. Pleatco's cores allow for the even flow of water through the entire cartridge which increases filtration, uses all the Pleatco Advanced Point Bonded Filtration Fabric®, and makes it easier for the pump to move water through the entire cartridge. Pleatco's Free Flow Cores are designed to be efficient, robust and save energy.

Quality matters. Choose wisely.

Anatomy of a Filter Cartridge.

Fundamentals of a properly designed pool or spa filter cartridge.

Pleatco Free Flow Cores[®]

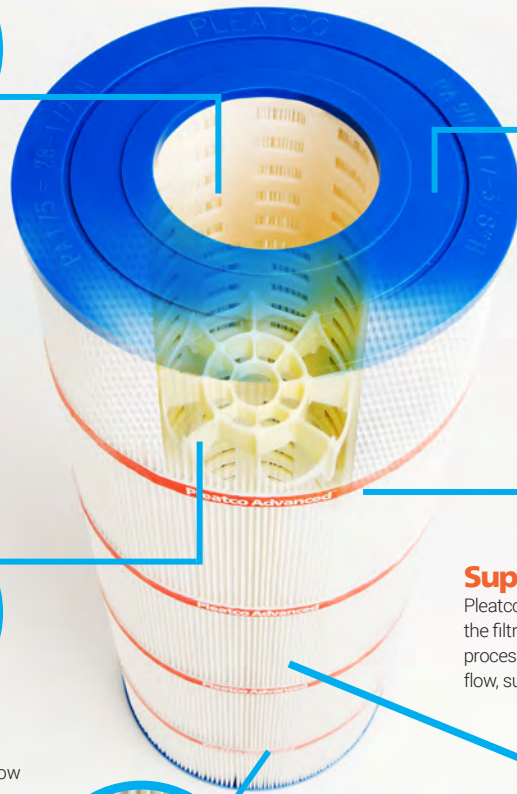

Engineered ABS for greater flow, higher efficiency and energy savings

Pleatco's unique Free Flow Cores maximize filtration performance of the entire cartridge by delivering optimized water flow to a greater surface area of the filtration fabric capturing the most dirt particles while reducing energy consumption and increasing the filter life. Pleatco Cores are highly engineered, incredibly strong molded ABS - not just regular PVC pipe with holes drilled in it.

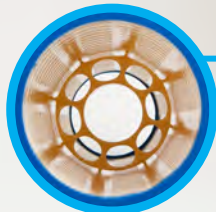

Pleatco End Caps

Pleatco end-caps are break resistant and are highly resistant to chemicals. With ergonomic handles and have an easily identifiable part numbers our end caps make replacement easy.

Super-bond Bands

Pleatco break-resistant super-bond bands are sealed tight to the filtration fabric with an incredibly strong unique bonding process keeping the pleats sharp and separated for greater flow, superior filtration and longer product life.

Reinforced Center Cores

Our meticulously engineered center cores allow for increased dirt loading and high pressures while providing ultra-solid protection for the structural integrity of the cartridge.

Pleatco Smart Tracker

• A Pleatco Original - An industry first!

Pleatco's Smart Track time stamping technology allows for lifelong product identification, quality tracking and warranty accountability. No other filter cartridge in the world offers this technology designed to provide true customer support and a 'real life' feedback mechanism for us to keep advancing the research and development of our filtration products.

Pleatco Advanced Filtration Fabrics[®]

• Highest fiber count - Holds more dirt!

• Most advanced filtration technology in the industry

Pleatco Advanced Filtration Fabrics are a uniformly point bonded media with the HIGHEST FIBER COUNT per unit area over competitive fabrics. Reduced pore size distribution offers rapid cleaning and superior dirt holding capacity delivering lower pressures and higher flow rates for perfect cleaning results.

Leaders in science and innovation.

Easily identify any pool or spa filter cartridge.

FIRST LOCATE THE PART NUMBER ON THE CARTRIDGE ENDCAP
NO PART NUMBER? MEASURE THE CARTRIDGE > A-B-C

A

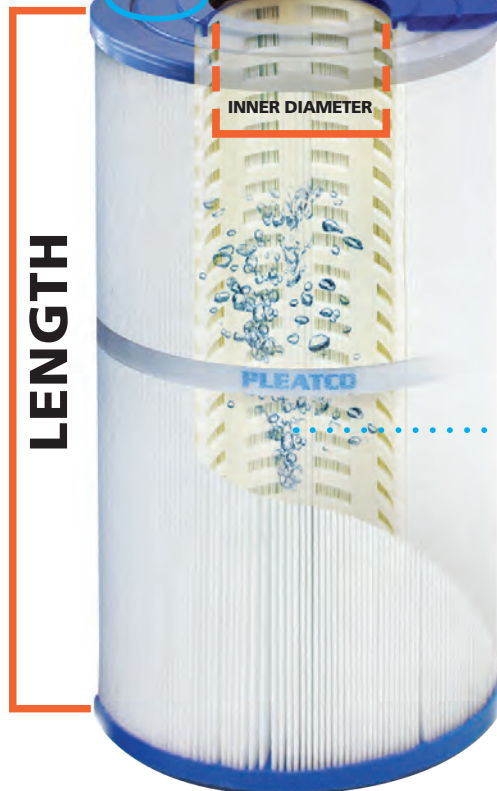

Measure the outer diameter of the cartridge
Measurements may vary. Always allow a variance of (+/- 1/16 inch)

OUTER DIAMETER

B

Measure the overall length of the cartridge
(+/- 1/16 inch)

LENGTH

INNER DIAMETER

C

Measure the inner diameter

The top or bottom hole of the cartridge
(+/- 1/16 inch)

Please note:

Some Pleatco Filter Cartridges include a robust inner core for extra strength and durability.

Only measure from end-cap to end cap!
Do not include handles or thread

Tip:

A more accurate measurement is made by measuring through the center of the cartridge when possible.

BY MANUFACTURER

From sea to shining sea.

To be the best you need coast to coast coverage.

At Pleatco we take business growth and expansion very seriously. Pleatco manufactures 100% of the products it sells throughout the world. We use the most technologically advanced pleating machines giving the company flexibility far beyond any of our competitors to use a wide range of materials to build innovative products.

In November of 2006, Pleatco operated in 12,000 square feet of leased space in New York. Today, the plant is approximately 80,000 square feet. This expansion was necessary to facilitate more efficient manufacturing and to create an advanced warehouse management system (WMS) necessary to streamline workflow and the proper stocking of raw materials and finished products.

Pleatco is recognized for speed of delivery. With the opening of a second manufacturing and testing facility in Mexico and a state-of-the-art distribution center in California, our products are being shipped to the western and southern regions of the USA and the pacific markets quicker and more cost effectively than ever. Our 2nd plant allows for greater volume and peace of mind to our customers that Pleatco products will always be available. Our expansion is just another way that signals that at Pleatco we truly live by our mantra of 'constant improvement'. Pleatco – from sea to shining sea.

Pleatco AdvancedSPA™

THE NEW STANDARD IN SPA FILTRATION

WE WANT YOU TO THINK ABOUT THE NEXT CHEER, NOT YOUR WATER QUALITY.

The water in a spa is only as clean as the filter cartridge you use. But not all cartridges are alike. Pleatco Advanced SPA Filter Cartridges are made with **exclusive Pleatco Point Bonded Spa Filtration Fabric®** and **Free Flow Core** technology delivering the absolute highest level of filtration on the market today, surpassing all competitive filters on quality, efficiency and performance. This summer, demand the best. Replace with Pleatco!

FILTERWASH™

FILTER CARTRIDGE CLEANER

The mighty little tablet that does the work for you!

Introducing NEW Pleatco Pleatco FilterWash, a hassle free way to get your filter cartridges sparkling clean.

Pleatco FilterWash™ is a simple to use cleaning table specially formulated to penetrate deeply into any reusable cartridge filter and remove the accumulated materials such as suntan lotion or oil, body oil, grease, dirt, soap scum and other organics. This thorough cleaning allows cartridges to return to a high level of original performance without harming the filter. Unlike other cleaning agents, Pleatco FilterWash™ comes in specific formulas - one for pools and one for spas, scientifically engineered for each environment. So let us do the work for you, simply and effectively.

 Pleatco Filter Cartridge to
 Launch and promote products

We've taken cartridge cleaning in a completely new direction, away from the typical spray-on products and into a simple tablet solution that is easy to use and easy to sell. PleatcoFilterWash tablets are engineered for individual Pool / Spa applications - a unique and exclusive concept to Pleatco - and have separate formulas for both applications.

Pleatco FilterWash tablets come in an attractive dispenser box that lists features, benefits and instructions so the customer or the store salesperson can immediately understand the simplicity and strength of the product. The dispenser boxes are pre-filled and are perfect for either the sales counter or on the shelf. Tablets come individually wrapped with a BARCODE on the front and a fold-out booklet that includes instructions. One tablet comes in a packet and cleans up to two filter cartridges.

For support we have created "how to videos" and a stand alone website PleatcoFilterWash.com. The product will be heavily promoted through cross sell labels on all Pleatco Filter Cartridges. Pleatco FilterWash tablets can be used to clean any filter cartridge and are a natural sales extension. So get started with new PleatcoFilterWash today.

CLEAN DESIGN

By using the highest quality raw materials and advanced manufacturing methods, Pleatco's D.E. Grids provide efficient, peak performance filtration for pools while delivering cost and energy savings and extended product life.

✓ Pleatco now offers a full range of grids including replacements for the entire **Universal and Purex** lines.

Pleatco DE GRIDS™

**Lighter
Stronger
Better**

Pleatco lightweight grid design flexes where needed but remains ridged when demanded. Our unique design centers on a 'flex backbone' that is specifically engineered to deliver strength without excessive bulky plastic for rigidity. This flexing prevents cracking and damage to the frame. A special reinforced center tube creates a duct to funnel water from the outer most edges of the entire grid assembly.

Using advanced manufacturing methods and scientific engineering, Pleatco has eliminated traditional weak spots in grid designs. Built with high impact ABS material featuring a high 'strength-to-weight' ratio, our grid frames are noticeably lighter in weight while providing superior strength, performance and dependability.

Under pressure and exposure to pool chemicals, heavier "old school" competitive grids can become brittle, fracturing at the corners and nipple assembly over time due to the constant bending that occurs in the tank. Pleatco's flexibility allows for a greater flow and provides longer product life.

All of our grids are made with Pleatco Unique Filtration Fabric® - a high performance woven polypropylene that contains only virgin resins to assure the highest strength and to maximize filtration. Seams are stitched by our product team experts with a chemical resistant heavy 4 ply thread. The unique Pleatco design also minimizes the amount of tension placed on the fabric, reducing splitting and tearing of the fabric.

UNIQUE PRODUCT TAGS

Pleatco D.E. Grids all feature easy to read product tags with the Pleatco part number prominently displayed for quick identification when it comes time to replace.

Pleatco DE Grids are engineered to outperform and outlast any other.

THIS SUMMER - THINK SEASONAL NOT DISPOSABLE!

Pleatco Advanced MiniClear® Premium Replacement Filter Cartridges for small, portable and above ground pools deliver the very latest filtration technology and are made from new Pleatco Advanced Point Bonded Filtration Fabric® providing the cleanest water filtration possible, all season long!

DON'T COMPROMISE THE HEALTH AND SAFETY OF YOUR CUSTOMERS.

Many disposable filter cartridges are cheaper because they are made of inferior materials and only last a matter of weeks requiring constant replacement delivering poor water filtration.

THE CLEAN WATER COMPANY

Perfect POOLGUY/GAL SEARCH

The Pleatco Perfect Pool Guy & Gal Contest originated in 2008 when the new owner of Pleatco thought it would be a fun contest. What started out as a "light-hearted" contest quickly turned into a serious nation-wide event which is now an international event. While some of the original entries were funny, most of the entries were submitted by loyal customers who truly appreciated the commitment to service at the highest level by their "Guy." A sampling of entries makes the point obvious...

"Jim is honest and hard working. He never misses a day and is always on time. He is a single father and still makes time to help others. Jim gives back to the community every day!" - "Brian is the poster child for pool guys. He eats, sleeps, and breathes pools." - "During the October fires in San Diego, Tom worked 16 hours a day for 30 days straight, removing ash from pools and reassuring everybody that their homes and pools will be fine."

In 2008, the contest started as the Perfect Pool Guy contest; after twenty percent of all the entries were woman, Pleatco realized that there needed to be a Perfect Pool Gal Award as well. Pleatco's staff was very impressed with the excellence and experience of so many contestants; they decided to award five other individuals with significant awards including The Big Heart Award for community service, Industry Achievement Award, Future Leadership, and Most Creative Entry.

Over the past eight years, over 700 people have entered the contest and nearly 45,000 people have voted for the winners. Each year, the Pleatco Perfect PoolGuy/Gal Search® has grown and continued to illuminate the strengths and passions of the pool service industry. Pleatco is proud to honor the men and women who work hard each day to not only service pools and spas, but also help educate their customers. Pleatco, Genis and the National Swimming Pool Foundation are honored to be the co-sponsors of this important industry event.
