

PRO SERIES® prozymes® pool

PRO SERIES ProZymes Pool reduces the buildup of non-living organic contamination. Sunscreens, body oils, lotions, cosmetics along with other non-living contaminants make up the non-living organic load. This contributes to problematic symptoms such as: scum lines, short cycling filters, unpleasant odors, poor water clarity and peak load cloudiness. This concentrated naturally based enzyme formula works with all sanitizing systems.

Directions For Use:

This product is designed for use in properly balanced pool water.

Initial Start-Up:

In addition to the maintenance dose, add 1 fl oz for every 1,000 gallons all at once, then every 7 days for the first 2 to 5 weeks, until the desired results are achieved. This additional amount is necessary to speed up the removal of the pre-existing non-living organic load.

Maintenance Dose:

Light to medium bather load: 1 fl oz for every 3,000 gallons per week.

Heavy bather load: 1 fl oz for every 2,000 gallons per week (most common commercial pool dosage rate).

Very heavy bather load: 1 fl oz for every 1,000 gallons per week.

Important: Sanitizer level should be below 5 ppm before adding this product.

For best results: Feed small amounts multiple times per day using an automatic dosage dispenser. Product can also be manually applied directly to pool.

WARNING

May cause an allergic skin reaction.
Causes serious eye irritation.

PRECAUTIONARY STATEMENT

Wash thoroughly after handling. Wear eye protection/face protection. Avoid breathing mist or vapor. Wear protective gloves. Contaminated work clothing should not be allowed out of the workplace.

IF ON SKIN: Wash with plenty of water. **If skin irritation or rash occurs**, get medical advice/attention. Take off contaminated clothing and wash it before reuse. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **If eye irritation persists**, get medical advice/attention.

Store away from incompatible materials.

Dispose of waste and residues in accordance with local authority requirements. Dispose of contents/container in accordance with local/regional/national/international regulations.

Keep Out of Reach of Children.

Store below 120°F. Do not allow product to freeze.

Note: For use in swimming pools only.
