

## **Safety Data Sheet**

**Titebond III Ultimate Wood Glue** 

### **Section 1. Identification**

GHS product identifier	: Titebond III Ultimate Wood Glue		
Physical state	: Liquid.		
Address	: Franklin International 2020 Bruck Street Columbus OH 43207		
Contact person	: Franklin Technical Services		
Telephone	: (800) 877-4583		
In case of emergency	: Franklin Security (614) 445-1300		
e-mail address of person responsible for this SDS	: SDS@FranklinInternational.com		
Reference number	: 6192		
Product code	: 1415		
Date of revision	: 11/12/2019		
Safety Data Sheets are available online at	: www.FranklinInternational.com		
Chemtrec (24 Hour)	: (800) 424 - 9300		
Chemtrec International	: +1 703-741-5970		
Chemical family	: Adhesive.		
Relevant identified uses of the substance or mixture and uses advised against			

Identified uses

Wide dispersive use of substances in professional and DIY adhesives. Industrial use wood glue.

## Section 2. Hazards identification

OSHA/HCS status	: While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.
Classification of the substance or mixture	: Not classified.
GHS label elements	
Signal word	: No signal word.
Hazard statements	: No known significant effects or critical hazards.
Precautionary statements	
General	<ul> <li>Refer to safety data sheet before use. Avoid contact with skin and clothing. Wash thoroughly after handling. Get medical attention if needed. Contact Franklin International Technical Service for additional information at 1-800-877-4583.</li> </ul>
Prevention	: Not applicable.
Response	: Not applicable.

## Section 2. Hazards identification

#### Storage

Disposal

- : Not applicable.
- : Not applicable.
- Hazards not otherwise

classified

: None known.

## Section 3. Composition/information on ingredients

#### Substance/mixture

: Mixture

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

#### Description of necessary first aid measures

Eye contact	:	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.	
Inhalation	:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if needed.	
Skin contact	:	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if needed.	
Ingestion	:	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if needed.	
Most important symptoms/e	ffec	ts, acute and delayed	
Potential acute health effect	<u>ts</u>		
Eye contact	:	This product may irritate eyes upon contact.	
Inhalation	:	No known significant effects or critical hazards.	
Skin contact	1	No known significant effects or critical hazards.	
Ingestion	1	No known significant effects or critical hazards.	
Over-exposure signs/symp	ton	<u>15</u>	
Eye contact	:	No specific data.	
Inhalation	:	No specific data.	
Skin contact	:	No specific data.	
Ingestion	:	No specific data.	
Indication of immediate medical attention and special treatment needed, if necessary			
Notes to physician	:	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.	
Specific treatments	1	No specific treatment.	
Protection of first-aiders	1	No action shall be taken involving any personal risk or without suitable training.	
See toxicological informatio	n (S	Section 11)	

## Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
Specific hazards arising from the chemical	: In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide
Special protective actions for fire-fighters	<ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.</li> </ul>
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures			
For non-emergency personnel	<ul> <li>No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.</li> </ul>		
For emergency responders	: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".		
Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).		
Methods and materials for containment and cleaning up			
Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.		
Large spill	: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.		

## Section 7. Handling and storage

#### Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

## Section 7. Handling and storage

Conditions for safe storage,	: Store between the following temperatures: 4.4444 to 32.222°C (40 to 90°F). Store in
including any	accordance with local regulations. Store in original container protected from direct
incompatibilities	sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see
	Section 10) and food and drink. Keep container tightly closed and sealed until ready for
	use. Containers that have been opened must be carefully resealed and kept upright to
	prevent leakage. Do not store in unlabeled containers. Use appropriate containment to
	avoid environmental contamination. See Section 10 for incompatible materials before
	handling or use.

## Section 8. Exposure controls/personal protection

Control parameters		
Occupational exposure limit	<u>ts</u>	
None.		
Appropriate engineering controls	:	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Environmental exposure controls	:	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.
Individual protection measur	<u>es</u>	
Hygiene measures	:	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Skin protection		
Hand protection	:	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	:	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	:	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

## Section 9. Physical and chemical properties

Appearance	
Physical state	: Liquid.
Color	: Brown. [Light]
Odor	: Characteristic. [Slight]
Odor threshold	: Not available.
рН	: 2.5 to 3.5

## Section 9. Physical and chemical properties

Melting point		Not available.
•••		
Boiling point		98.889°C (210°F)
Flash point	÷	Closed cup: >93.333°C (>200°F) [Setaflash.]
Evaporation rate	1	<1 (butyl acetate = 1)
Flammability (solid, gas)	1	Not available.
Lower and upper explosive (flammable) limits	1	Not available.
VOC (less water, less exempt solvents)	:	0.0105 g/l
Volatility	:	48% (w/w)
Vapor density	:	Not available.
Relative density	:	1.11
Solubility	:	Soluble in the following materials: cold water and hot water.
Solubility in water	:	Not available.
Partition coefficient: n- octanol/water	1	Not available.
Auto-ignition temperature	:	Not available.
Decomposition temperature	:	Not available.
Viscosity	:	Not available.

## Section 10. Stability and reactivity

: The product is stable.
: Under normal conditions of storage and use, hazardous reactions will not occur.
: No specific data.
: No specific data.
: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## Section 11. Toxicological information

#### Information on toxicological effects

#### Acute toxicity

Not available.

#### Irritation/Corrosion

Not available.

#### **Sensitization**

Not available.

#### **Mutagenicity**

Not available.

**Carcinogenicity** 

Not available.

#### Reproductive toxicity Not available.

#### **Teratogenicity**

# Section 11. Toxicological information

Not available.	Not available.				
<u>Specific target organ toxicity (single exposure)</u>					
Not available.					
Specific target organ toxicit	<b>y (</b>	repeated exposure)			
Not available.					
Aspiration hazard					
Not available.					
Information on the likely routes of exposure	:	Routes of entry not anticipated: Oral, Dermal, Inhalation.			
Potential acute health effects					
Eye contact	:	This product may irritate eyes upon contact.			
Inhalation	1	No known significant effects or critical hazards.			
Skin contact	1	No known significant effects or critical hazards.			
Ingestion		No known significant effects or critical hazards.			
		al, chemical and toxicological characteristics			
Eye contact		No specific data.			
Inhalation		No specific data.			
Skin contact		No specific data.			
Ingestion		No specific data.			
Delayed and immediate effects and also chronic effects from short and long term exposure					
Short term exposure		Nuclear setting to the			
Potential immediate effects	÷	Not available.			
Potential delayed effects	1	Not available.			
<u>Long term exposure</u>					
Potential immediate effects	1	Not available.			
Potential delayed effects	:	Not available.			
Potential chronic health effe	ct	<u>s</u>			
Not available.					
General	:	No known significant effects or critical hazards.			
Carcinogenicity	:	No known significant effects or critical hazards.			
Mutagenicity	:	No known significant effects or critical hazards.			
Teratogenicity	:	No known significant effects or critical hazards.			
<b>Developmental effects</b>	:	No known significant effects or critical hazards.			
Fertility effects	:	No known significant effects or critical hazards.			
Numerical measures of toxic	Numerical measures of toxicity				
Acute toxicity estimates					
Not available.					

## Section 12. Ecological information

#### Toxicity

Not available.

#### Persistence and degradability

Not available.

**Bioaccumulative potential** 

Not available.

<u>Mobility in soil</u>	
Soil/water partition coefficient (Koc)	: Not available.
Other adverse effects	: No known significant effects or critical hazards.

## Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 14. Transport information

	DOT Classification	TDG Classification	Mexico Classification	ADR/RID	IMDG	IATA
UN number	Not regulated.	Not regulated.	Not regulated.	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-	-	-	-
Transport hazard class(es)	-	-	-	-	-	-
Packing group	-	-	-	-	-	-
Environmental hazards	No.	No.	No.	No.	No.	No.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

## Section 15. Regulatory information

#### **U.S. Federal regulations**

## Section 16. Other information

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

## Section 16. Other information

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
