

# Hinge Boring Machine

## Universal Hinges Boring System

The CMT 333 innovative hinge boring system with a Blum pattern boring head allows you to efficiently bore the right holes in the right place for all the Blum hinges. The system will work with a drill press or a hand held drill (other boring heads also available by special order for Hettich, Mepla, Wurth and Salice hinges).

*Handy new boring jig for concealed hinges...  
gain accuracy and save time!*
