ENGAGE
product manual

TAG Hardware's ENGAGE collection has been created with your customers in mind, as it is customizable to adapt to various storage needs. Lined fabric baskets and pull-outs with fabric bases provide a contrasting accent texture to both the board materials you select, and the carefully matched metal finishes used across our Coordinated Hardware System.

The ENGAGE collection consists of a full line of pull outs with divided jewelry & lingerie organizers, fabric baskets, laundry hampers, and pant racks, plus collapsible storage boxes. The pull-out accessories feature anodized aluminum frames with an optional adapter that allows for a drawer face to be mounted. These frames also include soft-close undermount slides as standard.
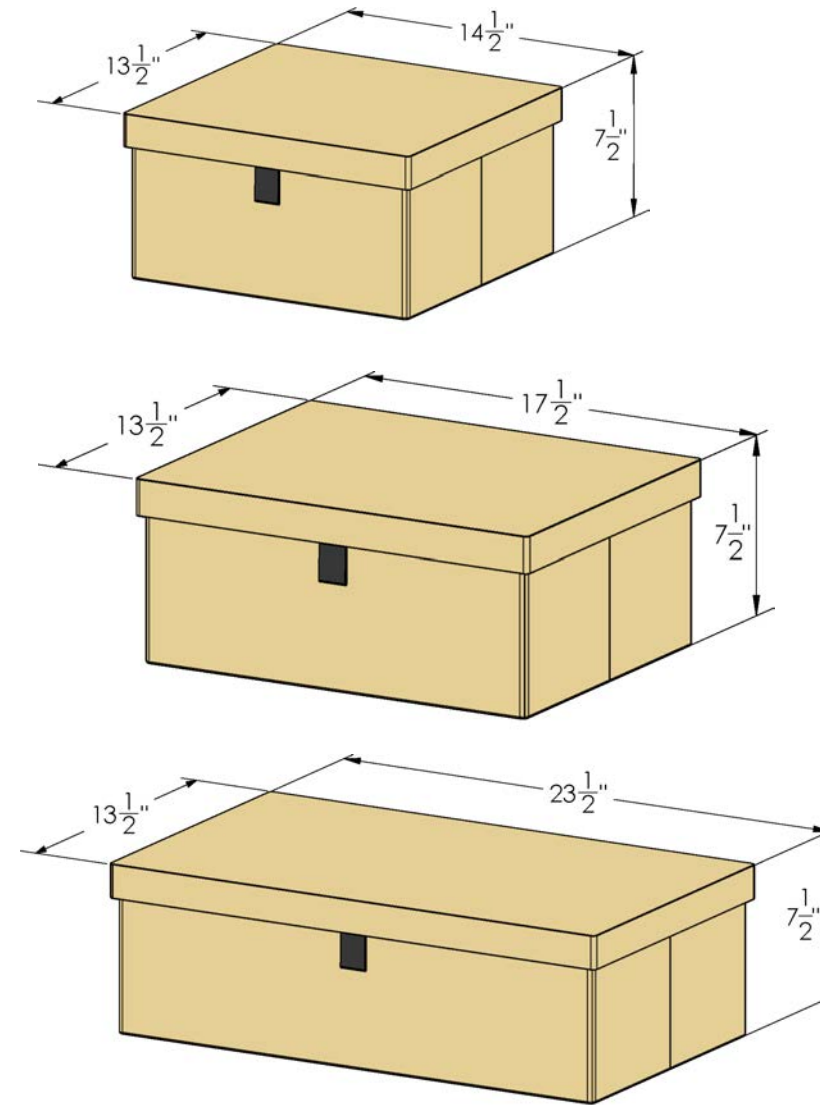

This rich fabric material, available in Slate or Beach, is used as an accent throughout the collection and beautifully complements any combination of finishes. The ENGAGE pull-out accessories are available in all of TAG Hardware's finish colours, including Matte Aluminum, Matte Nickel, Oil Rubbed Bronze, and our newest Matte Gold and Slate finishes.

TAG Hardware offers patented product designs and processes within our collection of Coordinated Hardware Products.

INSTALLATION GUIDE
## installing drawer face adapters

Step 1
Remove endcaps using a No. 1 Robertson Screwdriver. Be careful not to remove the plastic clips.

Step 2
Install left and right drawer face adapter plates by using 6 pieces of No. 8 - 1" self tapping screws (supplied).

panhead screw

flat head screw

Step 3
Attach drawer face to plate using pan head screw, mount through slot on plate. Ensure drawer face is centrally located (adjust position on slot if required). Attach flat head screw into countersunk hole.

INSTALLATION GUIDE
installing the slides and
mounting the frame
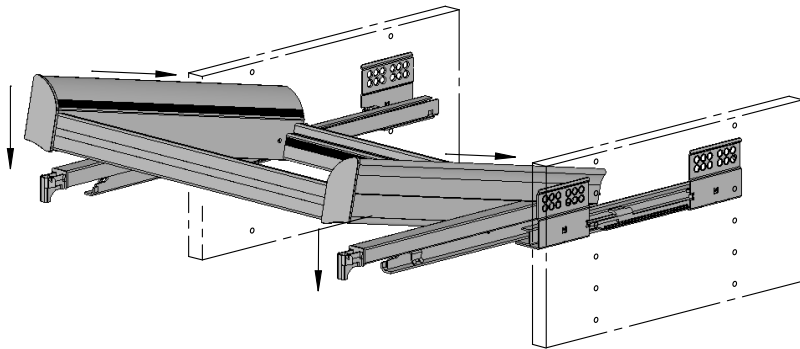

SLIDE REFERENCE
resources

Step 1
Mount the slides onto the
panels and extend out.

Step 2
Position frame on extended arms as
shown. Push frame back at angle until
rear slot engages with tab on back of
slide arm. Press front of frame firmly
down, snapping the clips onto the slide
arms.

Step 3
With the frame secured
at the front and back,
slide the rectangular clips
all the way to the front.
