Symphony Shoe Hook Redesign
310.8218.05.xxx

New

Extends out further allowing uniform hanging of small and large shoes

Removeable clip allows for easy repositioning on Symphony

Curved tip for sturdier anchoring

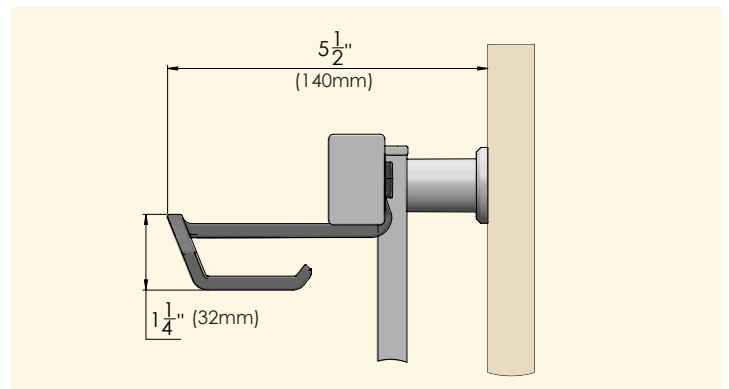

Deeper prongs to hold shoes more securely

Easy installation, no tools required

The Symphony Shoe Hook has been updated for better design and functionality. Similarly to the Coat Hook, this hook now has a clip that can be easily removed for repositioning. While attached to Symphony the hook can slide horizontally without removing the clip.

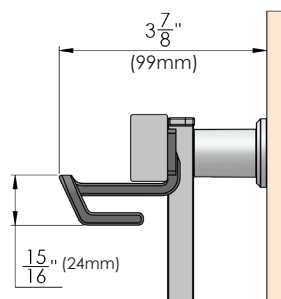

This hook is now a one-size-fits-all design. The improved shape and size of this hook eliminates the need for two different sizes, making it easier to design with.

Symphony Triple Hook Redesign
310.8201.05.xxx

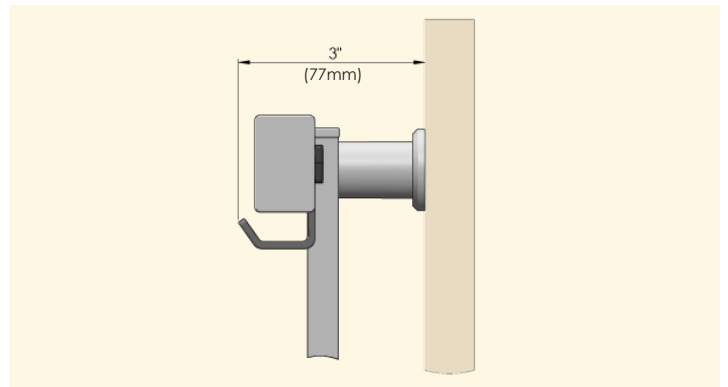

New

[Easy installation, no tools required]

The Symphony Triple Hook has been updated for better functionality, keeping the same modern design.

Similarly to the Coat Hook, this hook now has a clip that can be easily removed for repositioning. While attached to Symphony the hook can slide horizontally without removing the clip.
