

19 88 IMPACTO® SPECIALTY GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding
Protects the palm from Impact and Shock

Model **501-04**

- Made of 4-way stretch polycotton fabric to ensure optimum breathability and comfort
- Reduced VEP 1/8" padding in the palm protects from impact and shock from pressure from knife handling
- Fingerless style leaves fingers open for tactile feedback and mobility
- Glove liner for use under work glove
- Designed to cushion and support to prevent cumulative trauma injuries in poultry and meat processing applications

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

In Conformance with Norms:

EN 388:2003

Protective gloves against mechanical risks

EN 420:2003+A1:2009

General requirements for gloves

Sizing: Measure the circumference of the hand at the base of fingers.
