IMPACTO® ANTI-IMPACT GLOVE

Utilizing Visco-Elastic Polymer (VEP) Padding
Protects the palm and thumb web area from Impact and Shock

Model **502-10**

- Made of nylon fabric to ensure optimum breathability and comfort

- Contoured VEP 1/8" padding in the palm and thumb web area

- Fingerless style leaves fingers open for tactile feedback and mobility

- Suede leather cover offers abrasion protection and glove durability

- Great for protection from hand tools and power tools in applications including construction, assembly, manufacturing and warehousing

- Variations:
  502-00 – polycotton liner without leather
  502-20 – with grain leather cover

IMPACTO anti-impact gloves utilize Visco-Elastic Polymer (VEP) padding. VEP has excellent impact absorbing and shock dissipation qualities as well as absorption of higher levels of vibration. VEP is made from polyurethane with additional chemicals that increase its viscosity level. It is effective in redistributing and reducing local pressure on the area padded. VEP will not "compression set", making it extremely durable to stand to rigorous repetitive tasks. IMPACTO offers a large line of VEP padded gloves to suit customized needs.

CE In Conformance with Norms:

EN 388:2003
Protective gloves against mechanical risks

EN 420:2003+A1:2009
General requirements for gloves

| 1 | 2 | 4 | 4 |
