BGHIVIS Anti-Vibe Air Glove®

WORLD-FIRST from IMPACTO® Utilizing Patented Air Glove® Technology

Certified ANSI \$2.73-2002 (R 2007) / ISO 10819:1996

Provides impact, abrasion and vibration protection Used with multiple vibrating and pneumatic tools in low-light conditions Mechanic's style ensures maximum comfort, dexterity and fit

Silicone dots on the palm & fingertips ensure outstanding grip and flexibility

Synthetic ultra suede leather on the palm provides excellent wear and flexibility

Patented Air Glove® Bladder Technology reduces vibration energy transmission to the palm and fingers. Nonpermeable polymer bladder with individual air chambers provide effectiveness that won't degenerate. Soft, flexible bladder designed to conform to the flexlines of the palm and fingers helping to maintain tool control. The multiple air chambers construction of the Air Bladder ensures long lasting wear and it won't bottom out. The Air Bladder helps prevent job specific impact and vibration hazards in the workplace. Full finger design offers maximum protection while maintaining flexibility and tactile feedback for finger sensitivity and tool control

Bright glow mesh back, allows ventilation

Reflective strips on the back of the hand and finger tips enhance visibility at night and in low light conditions

Glow in the dark wrist cuff with adjustable hook/loop closure

In Conformance with Norms

EN 388:2003 - Protective gloves against mechanical risks EN 420:2003 + A1:2009 - General requirements for gloves

Part#	Glove	Hand Size	Circumference
