

# OUTDOOR FIELD PADDING

Z-clip attachment to a solid wall or structure

Lag and disc attachment to a chain link fence

## Features:

- 3" thick high-impact polyurethane foam
- ¾" exterior grade sheathing, sealed and stained on all sides
- 18 oz. vinyl with UV protection
- Attachment: Z-clip (for wood and masonry walls) or Lag and Disc (for chain link fence)
- Optional graphics available (*call for details*)

## Protect players from injury during play

Protective padding is an essential component for providing a safe athletic environment. Reduce the risk of injury from unpredictable ricochets from foul tips and passed balls on the baseball field.

Recommended for:

**Collegiate, High School, Elementary and Town Programs**

## STADIUM PADDING
