NETX1 - INSTALLATION MANUAL

INSTALLATION PROCEDURE:

1. Locate top net corners
2. Temporarily attach top net corners to top corners of face frame, using short length of lacing twine or zip ties.
3. Temporarily attach front bottom net corners to bottom corners of face frame, using short length of lacing twine or zip ties.
4. Lace net to frame starting from the middle of the crossbar and work your way out to corners and then down the posts.
5. Lace net bottom to groundstays.
6. Attach body-fit rope to rear vertex of goal.
7. Attach rope to top corners of frame, running the rope under the net.
8. Pull ropes to adjust net fit/tightness and then tie off to lock in fit.
