

their safety is essential.

Products made to work hard—and built to last.

Biohazard Waste Cans

Leakproof waste cans with self-closing lids provide safe, temporary collection of biohazardous waste

- Safely contain biohazardous materials, including bloodborne pathogens and other potentially infectious materials (no sharps)
- Great for medical facilities and research labs
- Meets OSHA 29 CFR 1910.1030 for the segregation of infectious waste and FM approved for use with alcohols and other flammable liquids
- Foot-operated, self-closing lid reduces risk of contamination
- Reduce closure noise with SoundGard™ models
- Sturdy design with steel construction
- Includes OSHA biohazard label on front; use optional label kit 25880 for additional labels to add to the sides, to meet California Health and Safety Code
- Optional liner bags for safe collection and segregation of contaminated waste—red bags for biohazard waste or yellow bags for infectious linen to be laundered
