

their safety is essential.

Products made to work hard—and built to last.

DOT Type II AccuFlow™ Safety Cans

Provides DOT compliance for over-the-road, air freight, and commercial transport of flammable liquids

- Heavy-duty roll-bars protect the spout from damage during transport to prevent dangerous fuel spillage
- Leakproof, spring-loaded lid self-closes to control vapors and spills—during transport, bracket holds lid closed preventing vapor release and spills
- Bracket features a fusible link that melts at 165 F (74 C) to prevent pressure build-up at elevated temperatures
- Patented, vented AccuFlow™ manifold with Safe-Squeeze® trigger provides fast, smooth, controlled pouring
- Flexible 9-in (229-mm) long metal hose helps control the pour into small openings
- Stainless steel flame arrester prevents flashback ignition
- Sealed lid features positive-pressure relief—automatically vents at 3-5 psi to protect against explosion
- Two-openings—one for targeted pouring, one for easy filling
- 24-gauge galvanized steel with tough, chemical-resistant powder-coat finish stands up to rigorous use
- Bottom lip provides grip to support pouring and resists accidental punctures when placed on uneven surfaces
- Extra capacity accommodates two-cycle engine oil or other additives
- Large label ID zone provides writing space to identify contents, department location, or individual user name
- FM-approved, OSHA and DOT compliant with rating 1A1/Y1.2/100

Heavy-duty roll bars protect the spout from damage.

Bracket with easy-to-grasp tightening screw prevents vapor release and spills during transport.
