558137	Gel-Infused Visco Foam Mattress w/Perimeter-Guard w/LSIII Cover	84" x 35" x 6"	Each

Pressure-Check™ Foam

Pressure-Check™ Foam has 400 support pods that adjust individually for optimal weight distribution and effective pressure relief. The 400 individual "Support Pods" separate the mattress into three specific pressure redistribution zones; Head, Heel and Trunk.

High-Density Support Foam

The bottom layer provides uniform compression-resistant support for weight distribution, comfort and extended mattress life.

Important Fire Code Information

All Skil-Care mattresses comply fire code 16 CFR 1633.

Cover

The NEW Low-Shear III cover provides an industry top choice of 4-Way Stretch fabric that provides less moisture, more comfort, and cooler feel than a standard 2-Way stretch fabric. The waterfall zipper prevents liquid penetration.

Application

The 6" Mattress is specifically designed to provide an industry leading pressure redistribution and pressure relief environment for the resident. The "Support Pod" technology optimally addresses the key issues of weight distribution, pressure relief, anti-shearing, and provides a positive thermo-climate by eliminating heat buildup.

Cleaning Instructions

The cover can be wiped clean with mild detergents or anti-bacterial solutions. Do not use bleach or chlorine products. Do not laundry.

Caution

The mattress should not be flipped over, the bottom section of the mattress cover is made with slip-resistant fabric. The foam is encapsulated with a fiber-glass fire reduction covering and should not be removed.
