

Pressure-CheckTM Foam Mattress With replaceable foam insert

Reorder #	Size
☐ 558010	6" x 36" x 72"
☐ 558020	6" x 36" x 80"

Specially designed for hospitals, nursing homes, and homecare.

Pressure-CheckTM Foam. Top foam layer features a variegated pressure-check design that provides superior weight distribution and special pressure relief at the most vulnerable sites - the heels and coccyx.

High-Density Support Foam. The bottom layer provides uniform, compression-resistant support for patient comfort and extended mattress life.

Low-Friction Cover. A supple, stretch-knit fabric covers the mattress providing substantial friction reduction to safeguard against skin shearing. The cover is backed with an incontinent-proof barrier. A zipper flap keeps moisture and contaminants from migrating into the foam. Bacteriostatic and completely launderable.

Replacement Cost Containment. All mattresses tend to wear most in the area that supports the patient's midsection. The Pressure-CheckTM Mattress allows you to replace just that area. Designed with an 18" x 18" cutout, you can remove the compressed portion and add a low-cost replacement section. There's no need to incur the expense of an entirely new mattress. This replacement feature extends the useful life of the Pressure-CheckTM Mattress and dramatically lowers costs while providing patients with the comfort and pressure-relief they need. (See below for component replacement information.)

Important Fire Code Information. All Skil-Care mattresses sold in the United States meet the mandatory fire code 16 CFR 1633.

FOAM MATTRESS

Replacement components are available from your Skil-Care dealer

Reorder #	Description	Size	Unit
558060	Foam Replacement Section	18" x 18"	Each

558092	Cloth Mattress Cover	80" x 36" x 6"	Each
558089	Perimeter Guard	80" x 36" x 6"	Each
558093	Cloth Mattress Cover	76" x 36" x 6"	Each
558094	Cloth Mattress Cover	84" x 36" x 6"	Each

Do you have a patient with special pressure relief needs?

For maximum pressure reduction in the coccyx area, use Skil-Care's Gel Pad Mattress Insert.

Designed to fit in the cut-out space of the Pressure-CheckTM Foam Mattress, the pad contains a water-based gel that moves with the patient to decrease skin shearing while cooling the skin to reduce skin-damaging perspiration. Simply remove the foam section as shown above and replace it with the Gel Pad insert.

Reorder #	Description	Size	Unit
558060	Gel Pad Insert	18" x 18"	Each
