- Lightweight and durable
- Comfortable, polyester mesh with HyperKewl™ PLUS fabric inner
- Size: One Size
- Color: Blue

POWERED BY

HYPERKEWL™ PLUS

Our unique HyperKewl™ PLUS fabric absorbs, stores and releases water within the multi-layered structure. Water is “released” through evaporation, energy is consumed, and a chill effect is created.

1. Submerge the item in water for 1-2 minutes
2. Gently squeeze out any excess water
3. Wipe dry and the garment is ready to wear

The garment will remain activated for 5-10 hours and can be re-hydrated by repeating these simple steps.

★ 100+ wet/dry cycles
