Air Filters & Regulators

Brass Air Regulator
AES-203
Increase or decrease pressure as the tool and job dictates. Installs in-line at the tool for convenient air flow adjustment. Thumb screw knob for quick and easy air flow adjustment. Brass construction impervious to heat, cold, or rust.

📋 HANG-UP CARD

- • **Quick and easy air flow adjustment**
- • **Brass construction will not rust**

Specifications	
Air Inlet:	1/4" NPT (M)
Air Outlet:	1/4" NPT (F)

Quick Adjust Air Regulator
AES-872
Within about 2-1/2 turns, the precision tapered valve will go from fully opened to fully closed. The knob is large, easy to handle and infinitely adjustable. Female swivel thread allows simple installation.

📋 HANG-UP CARD

- • **Quick and easy air flow adjustment**
- • **Swivel female thread**

Specifications	
Air Inlet:	1/4" NPT (M)
Air Outlet:	1/4" NPT (F)

Swivel Air Regulator
AES-1827
Air regulator swivels in two places, keeping the air hose straight at all times, no matter what position the air tool is held! Use directly on air tool or on a quick-change adapter.

360° Swivel

📋 HANG-UP CARD

- • **Stop fighting twisted air hoses!**
- • **360º Swivels in two places**
- • **Regulate air pressure at the tool**

Specifications	
Air Inlet:	1/4" NPT (M)
Air Outlet:	1/4" NPT (F)

160psi Air Pressure Gauges
Highly accurate, clear print, easy to read pressure gauges come in various sizes and connection configurations to meet your application needs!

📦 INDIVIDUALLY BOXED

Back Connection

Bottom Connection

SKU	Connection	Dial Diameter	Connection Configuration
AES-1101	1/8" NPT	1-1/2"	Back Connection
AES-1112	1/4" NPT	2"	Back Connection
AES-1113	1/8" NPT	2"	Bottom Connection
AES-1114	1/8" NPT	2"	Bottom Connection
AES-1115	1/4" NPT	2"	Bottom Connection

Quick Adjust Air Regulator with 160psi Gauge
AES-882
A body shop favorite! Same great function as the AES-872 but with a built-in 160 PSI pressure gauge.

- • **Easy to read 160psi gauge**
- • **Swivel female thread**

📋 HANG-UP CARD

Specifications	
Air Inlet:	1/4" NPT (M)
Air Outlet:	1/4" NPT (F)

Air Regulator with 160psi Gauge
AES-880
Heavy duty blue anodized aluminum body with easy adjust knob and 160 PSI pressure gauge.

📋 HANG-UP CARD

Specifications	
Air Inlet:	1/4" NPT (F)
Air Outlet:	1/4" NPT (F)

Diaphragm Air Regulator with 60psi Gauge
AES-878
Designed to be used on all spray guns including HVLP. Lightweight construction includes full diaphragm regulation to supply exact and consistent pressure at the spray gun, eliminating surges. Push-to-lock knob prevents accidental pressure changes.

- • **Precise air pressure control**
- • **Easy to read 60psi gauge**

📋 HANG-UP CARD

Specifications	
Air Inlet:	1/4" NPT (F)
Air Outlet:	1/4" NPT (F)

Diaphragm Air Regulator with 180psi Gauge
AES-875
Designed to be used on all spray guns including HVLP. Lightweight construction includes full diaphragm regulation to supply exact and consistent pressure at the spray gun, eliminating surges. Push-to-lock knob prevents accidental pressure changes.

- • **Precise air pressure control**
- • **Easy to read 180psi gauge**

📋 HANG-UP CARD

| Specifications	
Air Inlet:	1/4" NPT (M)
Air Outlet:	1/4" NPT (F)

Disposable Spray Gun Air Filters
Disposable compact air filter removes moisture and impurities from air lines before it reaches the spray gun. The super sensitive filter will effectively remove oil, aerosols, smoke, condensed moisture and virtually all solid particles. Available in bright "neon" orange, yellow and green. **Colors selected at random.**

- • **Can be used with HVLP spray guns**
- • **Significant protection without pressure drop**

Specifications	
Air Inlet:	1/4" NPT (M)
Air Outlet:	1/4" NPT (F)
Max. Pressure:	125 PSI

Single
AES-323
1 Air Filter
📋 HANG-UP CARD

2 Pack
AES-323-2
2 Air Filters
📋 HANG-UP CARD

25pc Display
AES-323-25
25 Air Filters (Display)

In-Line Air/Water Separator
AES-320
Unique bronze filter separates water from air at the gun. Allows painter to shoot dry; eliminates water spots. Clear reservoir shows accumulated water taken out of air line. Button release valve allows for easy disposal of accumulated liquid.

📋 HANG-UP CARD

AES-321	Replacement Filter Element

Specifications	
Air Inlet:	1/4" NPT (M)
Air Outlet:	1/4" NPT (F)

In-Line Safety Air Filter
AES-328
Proudly made in USA

High tech filter element actually blocks water moisture and other impurities even when totally saturated. As the element becomes completely saturated, the flow of air stops, providing a fail-safe check against water contamination. Simply unscrew filter housing to install replacement filter element. Compact and lightweight – only 3.5" long and 3.2oz.

📋 HANG-UP CARD

AES-329	Replacement Filter Element

Specifications	
Air Inlet:	1/4" NPT (F)
Air Outlet:	1/4" NPT (F)

Mini In-Line Air Filter
AES-1030
Tiny in-line filter does the job of a larger unit without getting in the way. Eliminates dust and other air line contaminates without a loss of air pressure.

📋 HANG-UP CARD

Specifications	
Air Inlet:	1/4" NPT (M)
Air Outlet:	1/4" NPT (F)

3-in-1 Air Manifolds
Accepts three 1/4" air hoses or air couplers. Mount to air pipe at workbench or overhead.

AES-3103
📋 HANG-UP CARD

Specifications	
Thread Size:	1/4" NPT (F)
Dimensions:	3.75" x 0.75" x 0.75"
Material:	Aluminum

AES-3104
📋 HANG-UP CARD

Specifications	
Thread Size:	1/4" NPT (F)
Diameter:	1-1/2"
Material:	Brass
