

55 Gallon Drum Pump AES-716

Specifically designed for fast transfer of thinners, industrial chemicals and light to medium viscosity oils and lubricants. **Not for use with acids or soaps.**

- **Dispenses approximately 1.5 pints per full stroke**
- **Fits 15-55 gallon drums**
- **Rotating 360° adjustable spout**
- **2" Bung adapter included**

INDIVIDUALLY BOXED

55 Gallon Drum Pump with Lever AES-718

Designed to fit 15 gallon through 55 gallon drums. Ideal for lubricants, solvents and industrial chemicals. Self-adjusting telescoping suction tube, removable spout, comfort-grip vinyl handle. **Not for use with acids or soaps.**

- **Dispenses approximately 3/4 pint per stroke**

INDIVIDUALLY BOXED

Polypropylene Drum Pumps

Polypropylene construction resists corrosion and oxidation. Designed to transfer industrial grade degreasers, cleaners, detergents, detailing soaps and light weight lubricants. **Not for use with thinners and reducers.**

- **Dispenses approximately 1.5 pints per full stroke**
- **Rotating 360° adjustable spout**
- **2" Bung adapter included**

INDIVIDUALLY BOXED

AES-724	Fits 55 gallon drums
AES-726	Fits 5 through 55 gallon drums

5 Gallon Pail Pump with Pail Strap AES-745

Designed to be used with reducers, thinners, solvents, machine oils and lubricants. Fits all 5 and 6 gallon pails with standard or express spout. Allows smoother one-handed operation. Heavy duty steel construction. **Not for use with acids or soaps.**

HANG-UP CARD

5 Gallon Pail Pump with Tie-Down Bracket AES-746

Includes a sturdy bracket that tightly clamps on to pails pinchweld top, preventing spills. Designed to be used with reducers, thinners, solvents, machine oils and lubricants. Fits all 5 and 6 gallon pails with standard or express spout. Allows smoother one-handed operation. Heavy duty steel construction. **Not for use with acids or soaps.**

HANG-UP CARD

Flex Spout Collar AES-746-1

Holds pumps steady on 5 and 6 gallon pails with an express flex spout. Threads tightly on the spout opening. Compatible with AES-745 and AES-746.

INDIVIDUALLY BAGGED

Self-Priming Siphon Hoses

This self priming Siphon Hose has a 6' long anti-static, anti-spark hose with a 3/4" diameter copper tip that contains a check valve (a glass ball and stainless steel spring). The secret to the Siphon Hose is in this check valve which make it self-priming.

Just set the copper valve end into your liquid and use a few quick strokes up and down to start the self-priming action of the Siphon Hose. When the fluid in the hose is past the level of the fluid in the tank, you are siphoning from, gravity will take over.

That's it, and in 1-1/2 minutes flat you can transfer 5 gallons of gas (or any other liquid) safely, without any gas in your mouth or on the ground!

HEADER CARD

SKU	Diameter	Length
AES-6412	1/2"	70"
AES-6456	1"	80"

"Plastic Steel" Bung Wrench AES-725

Use on 3/4" and 2" caps on 55-gallon drums, or as a pry tool for 5-gallon and 6-gallon plastic bucket lids. Rust-proof and will not cause sparks. Reverse side pictured (right).

HANG-UP CARD

Double Pail Solvent Dispenser AES-748

A "must" for any shop with limited floor space. Sturdy steel tubing frame with easy-tilt pail supports and adjustable "lip-grip" handles conveniently dispenses and stores 5 gallon pails of solvents, thinners, strippers and more.

INDIVIDUALLY BOXED

Single Pail Solvent Dispenser AES-747

This labor saver makes the dispensing of fluids from 5 gallon pails. Simply tilt and pour.

INDIVIDUALLY BOXED

3/4" Drum Faucet AES-714

Self-closing. Ideal for thinners, solvents, clear lacquers and most other liquids except acids. Can be padlocked closed. 3/4" Tapered male pipe thread.
