Multi-Purpose Work Light

Rechargeable

Spotlight

Floodlight

Dual-Light

This dual-switch rechargeable Multi-Purpose Work Light is one of the most versatile lights available. It is actually two lights in one...a spotlight and a floodlight. Rated at 200 lumens, the spotlight beam on this light puts a beam of light exactly where you need it. This unique work light also has a non-focused 170 lumens floodlight built into the handle. Because the floodlight does not have a reflector, the light spreads out in a wide even pattern of light expressly for the purpose of lighting up areas that are close by. Now you have two completely different patterns of light for whatever work needs to be done...a spotlight for locating the problem, and a floodlight for lighting up the area while the problem is being fixed. You can even turn both lights on at the same time for even more lighting options. The ergonomic shape of the handle makes it a pleasure to hold, and the flat-bottom design means it will stand up on virtually any flat surface. For additional hands-free options, the work light includes a Hook/Prop Stand. It can be used to hang the work light up, and because it can rotate 360 degrees around the body of the light, the light can be pointed to exactly where it's needed. Power comes from an integrated Nickel Metal Hydride battery.
