

STEP DRILLS

- Premium Cobalt M42 for long tool life
- Faster starting with Blair split point
- Angled double flute for faster penetration
- TiN coated for increased tool life & improved hole quality

Part Number	Description	Depth
35400	1/8" to 1/2"	1/8"
35401	3/16" to 1/2"	3/8"
35402	3/16" to 7/8"	1/8"

SPOTWELD DRILL

Remove Spotwelds Fast on All Types of Metals

- Low Speed 800 RPM - Better for UHSS & Boron
- Manual Feed w/ Leverage Handle Increases Cutter Performance (No air power is consumed to advance the cutter, resulting in more torque and faster spotweld removal)
- Adjustable Cutting Depth
- Two 360° Swivel Frame Clamps (Included)
 - 2-5/16" and 5-5/8" depth
- Low Noise
- Built in Comfort Grip
- Includes (1) 8mm Triple-Fluted Solid Carbide Drill Bit
- Additional Sizes of Carbide Spotweld Drills
 - Part No. 11306 (6.5mm)
 - Part No. 11308 (8mm)
 - Part No. 11310 (10mm)
 - Part No. 11312 (12mm)

Specifications

Cutter RPM:	800
Air Pressure:	90 psi
Air Consumption:	4 CFM (113 L/min)
Length:	13-15/16" (346mm)
Height:	9-1/4" (235mm)
Width:	2" (50mm)
Weight:	5.5 lbs (2.5 kg)
Noise Level:	84dB

Part No. 11300

Patented

PREMIUM SOLID SPOTWELD CUTTERS

Drill out Boron spotwelds fast with the Premium Solid Spotweld Cutter. Made from solid carbide for long tool life in today's high strength, extremely hard body panels. Designed for use on UHSS, Boron and standard automotive steels. It is self centering and has an easy cutting action, leaving no damage to underlying panels. Double coated for maximum durability. For use with the Blair Enforcer™ Spotweld Drill or "gun" type spotweld tools. Made in USA.

Diameter	Part Number
6.5mm	11306
8mm	11308
10mm	11310
12mm	11312

PREMIUM SPOTWELD CUTTERS

When you have a lot of spotwelds to remove, step up to the Premium Spotweld Cutters for longer life in auto body repair and restoration. These cutters have a heavier wall (.090") for extreme durability and two step geometry that splits the chips and helps clear them. Premium Spotweld Cutters have a fast cutting action and lasts for hundreds of spotwelds. They are for use in 3/8" or larger drill chucks. The spotweld cutters are available individually or in kits containing 3 cutters. (See page 7 for Spotweld Kits). Made in USA.

11093 Replacement Parts: Arbor - 11123, Pilot - 11097

11094 Replacement Parts: Arbor - 11122, Pilot - 11121

3/8" Premium Spotweld Replacement Cutters
Part No. 11108-3

Two types to choose from:

Premium Spotweld Cutter w/ Standard Pilot
Part No. 11094

Skip-Proof Premium Spotweld Cutter
Part No. 11093

BLAIR SPOTWELD CUTTER

3/8" Double-End Replacement Spotweld Cutters Part No. 13214

Blair Double-End Spotweld Cutters make removing body panels fast and easy. Their hollow design cuts around the spotweld so weld hardness does not affect tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other side. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged. Made in USA. Replacement Parts: Arbor - 13216, Pilot - 13217.

Blair Double-End Spotweld Cutter
Part No. 13224
