Regarding: Annual California Proposition 65 Warning Labels

Dear Valued Customer,

You may have recently noticed a warning label on some Bondhus packages that says:

 **WARNING:** Cancer and Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

Bondhus has repeatedly tested each of the pouches used to package our product(s), and in each test, no Prop 65 materials were present. To avoid the possibility of litigation, we have decided to place Prop 65 warning labels on all products that we are selling in a PVC pouch, despite them containing no Prop 65 chemicals. Placing the warning label on our PVC packaged products seems to be the most prudent measure to protect both Bondhus and our distributors from any possible legal action.

A handwritten signature in black ink, appearing to read "Nick Marchuk".

Nick Marchuk  
President
