

CRUSHPROOF® TUBING

DIESEL STACK ADAPTERS

Adapters provide the right size and shape to make sure that your exhaust system is capturing all the fumes properly and improves hose life by ensuring better heat distribution. All adapters require a loose fit over the pipe, and a minimum of 1/2" gap of clearance is required for proper performance. The DSR600, DSR600-6, DSR8600, and DSR9600 all have a rod that allows them to sit safely on top of a stack for proper air flow. All diesel exhaust removal systems should include a fan to ensure safe operation.

F800

8" round for stacks up to 7.5" O.D. and fits on our 4" hoses. Also popular for larger ground-based applications like buses.

DSR600

6" round for stacks up to 5.5" O.D. and fits on our 4" and 5" hoses.

DSR600-6

6" round for stacks up to 5.5" O.D. and fits on our 6" hoses.

DSR8600

8" round for stacks up to 7.5" O.D. and fits on our 5" and 6" hoses.

DSR9600

9" round for stacks up to 8.5" O.D. and fits on our 5" and 6" hoses.

DSR1200-6

12" round adapter with silicone base that threads on our 6" hoses. Designed for the largest applications up to 11" round.
