

Magnetic Plug Weld Tools

Magnetic Plug Weld Tools
with 2.5" long copper pads

MPWT

MPWT2L

MPWT2X

- Weld Backup tools
- Strong Magnetic Base
- Electric weld will not stick to the copper pads
- For use with TIG and MIG electronic welders
- Keeps wire from going through hole
- Copper pad dissipates heat
- Saves time and labor, quicker cleaner welds

Position magnetic base so that the copper pad is behind joint or hole to be welded. Adjust knob up or down so that copper pad is flush against the back of void to be welded, and weld up hole. Remove tool and grind the excess weld.

Made in Taiwan Exclusivly for VIM Tools, PATENT PENDING
