Fowler's line of fine quality vernier calipers measure accurately in inch or metric with vernier scales of .001" and .02mm.

Features:

- Made of fully hardened stainless steel; microfine black graduations on a satin chrome finish for easy, precise reading.
- All models offer a depth rod which can be read directly from verniers.
- Measuring faces are ground and lapped for extreme accuracy.
- 4-way jaws for outside, inside, depth and step measurements.
- Extra-long vernier ensures accuracy.
- All sliding surfaces are raised to prevent defacement and wear of graduations.
- All models meet or exceed U.S. Federal specifications for accuracy.
- Includes case.
- Parallax free version features beam & scales on same plane.
