

SST42V

Pistol Probe Professional Series

Identifies power, ground and opens on 6, 12, 24 and 42 volt circuits. Quickly find broken wires, blown fuses, bad switches and more!

- **New** - Now works on 6V, 12V, 24V and 42 volt circuits.
- **New** - Microprocessor controlled current loading capability for a TRUE test of powers and grounds. All the advantages of an incandescent Test Light, but **computer and air bag safe**.
- **New** - Super Bright LED Headlamp, great for working under dash, under hood or behind door panels.
- **New** - Dual Audible Tone and bicolor LED indicate power, ground or open circuits.
- Includes: 4" probe extension, screw-on alligator clip, and banana plug.
- Rugged blow molded case

42 Volt hybrid compatible

**Computer
and
airbag safe**

Includes:

- SST 42V Pistol Probe
- 4" Probe Extension
- Screw-on Alligator Clip
- Banana Plug
- Blow Molded Case
- User Guide
