## HP-2® / M39000\*

The HP-2 is the number one selling hand rivet tool in the industry. Known and trusted for durability, quality and performance, the HP-2 is often copied but never duplicated. Its square shoulder fulcrum pin of cold-formed heat-treated steel prevents pin rotation that can elongate the engaging holes and cause premature tool failure in imitation tools. Other quality features include: precision die-cast, high-strength aluminum alloy body; drop-forged carbon steel upper handle; and thick, cushion-molded vinyl grips for comfort. The HP-2 sets up to 3/16" steel rivets and comes with four mounted nosepieces (3/32", 1/8", 5/32" and 3/16") and a service wrench. Refer to the Hand Rivet Tool Capacity Chart on page 19 for specific capabilities. Weight: 1.2 lbs.

## HP-3® / M39002

This hand rivet tool offers long, ergonomically designed handles to increase leverage. The tool is spring-loaded to secure the rivet in the nosepiece while the tool is in any position. The HP-3 offers powerful riveting capacity with 4 standard nosepieces to set 3/32", 1/8" and 5/32" in all alloys and up to 3/16" in steel. It features a drop-forged steel handle with heat-treated aluminum body with steel insert, high quality powder coated finish, special alloy steel fulcrum pin with anti-wearing design and durable jaws and jaw case. Weight: 1.2 lbs.

## Klik-Turn™ SP-1 / M39005

The SP-1 swivel head hand-held rivet tool features a patented positive-ratchet locking feature which will allow the swivel head section of the tool to turn 360° and hold in place in any of the forty-plus positions. The high-strength steel body and cast aluminum head complement this innovative design in a swivel head riveting tool. The SP-1 also includes built-in threaded nosepiece storage holes and a service wrench. The SP-1 sets up to 3/16" steel rivets. Weight: 1.2 lbs.
