NINETEEN-FIVE™ TIRE MOUNTING & DEMOUNT TOOL SET FOR 19.5” TIRES 33195

Juego de herramientas de montaje y desmontaje de neumáticos de 19.5” Nineteen-Five™
Jeu d’outils de montage - démontage de pneus de 19,5 po Nineteen-Five™

19.5” tires must be mounted and demounted with the wheel’s Hub Side Up because the Drop Center of the wheel is closer to the hub! This makes changing the 19.5” tires notoriously difficult because the hub gets in the way of conventional bars and spoons. 19.5” tires are also stiffer with high ply ratings and thick beads. Patented Bead Holder to hold bead on 19.5” aluminum wheels.
