

## 39000 "NO SLIP" PULLEY PULLER/INSTALLER

Removes and Installs Pressed on Power Steering, Alternator and Air Pump Pulleys.

Makes removing pressed on pulleys an easy job. The unique puller body completely houses the pulley hub to prevent slipping on even the tightest pulleys. Fits most domestic models including GM 3.1 and Quad 4 engines. Works on traditional V shaped pulleys and serpentine belt system pulleys. Also works faster than other conventional pulley pullers. Patented design traps the pulley and provides a gripping handle. Tool comes with detailed instructions and a heavy-duty plastic storage case.
